INDEX

Volume 151, January–March 1966

Acetazolamide, pharmacology of, 464
Acetophenetidin, metabolism, effect of enzyme induction and inhibition, 133
Acetylcholine, venoconstriction induced by, 423
N-Acetyl-*p*-aminophenol, metabolite of acetophenetidin, 133
Adrenal glands, influence of social stimulation upon weight, in mice, 331
  release of catecholamines from, by tyramine, 55
Adrenergic blockade, by N-*tert.*-butylmethoxamine, 413
Adrenergic fiber, of atria, effect of sympathetic nerve stimulation, 46
Adrenergic nerves, degeneration of, 66
p-Aminohippurate, transport, in kidney slices, 159
Amphetamine, antagonism by methyltyrosine and related compounds, 339
  toxicity, and aggregation in mice, 331
Antiarrhythmic action of MJ 1999, 32
Anticonvulsant properties, of benzodiazepines, 369
Antimony compounds, effects on cardiovascular system and intestinal smooth muscle, 7
Arrhythmias, after atrial stimulation in heart-lung preparations, 438
  epinephrine-induced, antagonism by MJ 1999, 32
Artery, mesenteric, response to nerve stimulation and drugs, 313
Atkinson, R. A., *see* Rogers, L. A., 313
Atria, effect of sympathetic nerve stimulation on norepinephrine redistribution, 46
Atropine, influence on pilocarpine-induced prostatic secretion, 59
Autonomic drugs, various, effects on isolated mesenteric arteries, 313
Axelrod, J., *see* Glowinski, J., 385
  see Iversen, L. L., 273

Bakewell, W. E., *see* Prange, A. J., Jr., 409
Banks, W. F., Jr., *see* McChesney, E. W., 482
Barbiturates, effects on electrical excitability of cerebral cortex, 321
  effects on recovery cycles of cat central nervous system, 376
Behavior, of mice offspring, effects of prenatal chlorpromazine on, 110
Bendroflumethiazide, effects on renal transport of electrolytes, 168
Benzodiazepines, anticonvulsant properties of, 369
Bianchi, C. P. and Bolton, T. C., 456
Blinks, J. R., 221
Blood flow, renal and femoral, influence of catecholamines on, 23
Bolton, T. C., *see* Bianchi, C. P., 456
Boyd, E. S. and Meritt, D. A., 376
Bradykinin, effect on renal and femoral blood flow, 23
Brain monophosphoinositide, effect of drugs on *in vivo* turnover, 307
Braunwald, E., *see* Frommer, P. L., 1
Bretylium, effects of phenoxybenzamine on responses to, 189
Bukhamana, P., *see* Hardman, H. F., 300
Burns, J. J., *see* Conney, A. H., 133
Butoxamine, adrenergic blockade by, 413

Calcium, movement in muscle contracture, 456
Carbonic anhydrase, inhibition in kidney by CL 11,366, 464
Cardiac glycoside, effect of cardiac catecholamine depletion on response to, 38
  -induced arrhythmia, effects of paired electrical stimulation on, 1
Cardiac glycosides, antagonism of inotropic effect by corticosteroid, 294
Cardiac tissue, seasonal variation in response, 300
Cardiovascular effects, of cyclic 3′,5′-AMP, 262
Cardiovascular system, effects of antimony compounds, 7
Castellion, A. W., *see* Swinyard, E. A., 369
Catecholamine, depletion, cardiac, influence on response of heart to ouabain, 38
Catecholamines, effect on canine renal and femoral blood flow, 23
  interaction with levorphanol and morphine in mouse eye, 103
  liberation by pilocarpine for prostatic secretory stimulation, 59
  release from adrenals by tyramine, 55
  uptake and release in isolated atria, 196
Central nervous system, effects of doxapram hydrochloride, 360
  recovery cycles, effects of barbiturates and tetrahydrocannabinol derivatives, 376
  uptake of catecholamines by neurons of, 400
Cervoni, P., Kirpekar, S. M. and Schwab, A., 196
Chan, G. K., *see* Somani, P., 32
Chloride, renal transport of, 168, 180
Chloroquine derivatives, metabolism in humans and monkeys, 482
Chlorpromazine, prenatal, effects on liver, survival and behavior of mice offspring, 110

Cholesterol, metabolism, effects of epinephrine, 151
Cholinergic agents, effect on brain monophosphoinositide turnover, 307
CL 11,366, pharmacology of, 464
Cocaine, influence on response of aortic strips to norepinephrine, 253
Collins, R. L., *see* Ordy, J. M., 110
Conney, A. H., Sansur, M., Soroko, F., Koster, R. and Burns, J. J., 133
Contracture, in frog muscle, role of calcium, 456
Conway, W. D., *see* McChesney, E. W., 482
Cortex, isolated, excitability during withdrawal from barbiturates, 321
Corticosteroid, antagonism of cardiac effects of ouabain, 294
Cotten, M. deV. and Logan, M. E., 7
Curtis, G. P., *see* Swain, H. H., 438
Cyclic 3′,5′-AMP, cardiovascular and metabolic effects in dogs, 262

Degeneration contraction, of nictitating membrane, 66
Denervation contraction, and norepinephrine content in nictitating membrane, 87
Denervation supersensitivity, development of, 87
of nictitating membrane, 73
Digitalis, toxicity, effects of paired electrical stimulation, 1
DiStefano, V. and Klahn, J. J., 236
Dopamine, effect on renal and femoral blood flow, 23
uptake in neurons of different brain regions, 400
Doxapram hydrochloride, action in central nervous system, 360

Eckhardt, S. B., *see* Maxwell, R. A., 253
Electrical stimulation, effects on toxicity from cardiac glycosides, 1
Electroencephalographic effects, of LSD and congeners, 353
Enzyme, induction, effect of 3-methylcholanthrene, on acetophenetidin metabolism, 133
inhibition, effect of SKF 525-A on acetophenetidin metabolism, 133
Epinephrine, effects on cholesterol metabolism, 151
-induced cardiac arrhythmias, antagonism by MJ 1999, 32
interaction with levorphanol in mouse eye, 103
uptake in neurons of different brain regions, 400
Ethylenediamine, cardiac actions of, 300
identification of active forms of, 300
Excitability, electrical, of isolated cortex during barbiturate withdrawal, 321

Farah, A., *see* Ross, C. R., 159
Field stimulation, of isolated heart muscle, 221
Fleming, J. G., *see* Somani, P., 32
Frommer, P. L., Robinson, B. F. and Braunwald, E., 1
Funderburk, W. H., Oliver, K. L. and Ward, J. W., 360

Ganglion, superior cervical, effects of nicotine, pilocarpine and histamine, 430
Gans, J. H., 151
Gavitt, J. A., *see* Smith, A. A., 103
Giarman, N. J., *see* Gillis, C. N., 46
Gillis, C. N., Schneider, F. H., Van Orden, L. S. and Giarman, N. J., 46
Glowinski, J., Iversen, L. L. and Axelrod, J., 385
see Iversen, L. L., 273
Goldberg, L. I., *see* McNay, J. L., 23
Growth, effects of drugs in rats, 409
Guanethidine, effects of phenoxybenzamine on responses to, 189
influence on response of aortic strips to norepinephrine, 253

H^3-inositol, incorporation into brain monophosphoinositide, 307
Hadidian, Z., *see* Smith, E. R., 59
Haefely, W., *see* Thoenen, H., 189
Hardman, H. F. and Bukhamana, P., 300
Heart, isolated, influence of catecholamine depletion, 38
Heart-lung preparations, production of atrial arrhythmias in, 438
Heller, A., *see* Margolis, R. U., 307
Hexamethonium, influence on pilocarpine-induced prostatic secretion, 59
Himwich, H. E., *see* Shweigerdt, A. K., 353
Histamine, effects on superior cervical ganglion, 430
Huerlimann, A., *see* Thoenen, H., 189
Hypertonic solutions, effects on production of atrial arrhythmias, 438
Hypotension, mebutamate as agent, 285

Ilievski, V., *see* Smith, E. R., 59
Imipramine, effects on growth in euthyroid and hyperthyroid rats, 409
Immunosympathectomy, effects on metabolism of norepinephrine, 273
Iodoacetate, effects on contractile protein of skeletal muscle, 445
Iorio, L. C. and McIsaac, R. J., 430
Isoproterenol, effect on renal and femoral blood flow, 23
Isotope tracer, incorporation of H^3-inositol into brain monophosphoinositide, 307
Iversen, L. L., Glowinski, J. and Axelrod, J., 273
see Glowinski, J., 385

Jaffe, J. H., *see* Sharpless, S. K., 321

Kahn, N., *see* Wang, H.-H., 285
Karmin, M., *see* Smith, A. A., 103
Keats, A. S. and Telford, J., 126
Kirpekar, S. M., *see* Cervoni, P., 196
Klahn, J. J., *see* DiStefano, V., 236
Koe, B. K., *see* Weissman, A., 339
Koster, R., *see* Conney, A. H., 133

Langemann, H., *see* Lichtensteiger, W., 400
Langer, S. Z., 66
and Trendelenburg, U., 73
see Smith, C. B., 87
Lefer, A. M., 294
Lennon, H. D., 143
Levine, R. A. and Vogel, J. A., 262
Levorphanol, effect of drugs on production of lenticular opacity by, 103
Levy, B., 413
Lichtensteiger, W. and Langemann, H., 400
Liver, effect of prenatal chlorpromazine, in mice offspring, 110
Logan, M. E., *see* Cotten, M. deV., 7
Long, J. P., *see* Rice, A. J., 423
see Rogers, L. A., 313
Ludden, C. T., *see* Torchiana, M. L., 242
Lum, B. K. B., *see* Somani, P., 32
Lysergic acid diethylamide, and congeners, electrographic study of, 353

Marcus, S. M., *see* Tanz, R. D., 38
Maren, T. H., *see* Travis, D. M., 464
Margolis, R. U. and Heller, A., 307
Markee, S., *see* Wang, H.-H., 285
Maxwell, R. A., Wastila, W. B. and Eckhardt, S. B., 253
McChesney, E. W., Conway, W. D., Banks, W. F., Jr., Rogers, J. E. and Shekosky, J. M., 482
McIsaac, R. J., *see* Iorio, L. C., 430
McNay, J. L. and Goldberg, L. I., 23
Mebutamate, mechanism of hypotensive action, 285
Meralluride, effects on renal transport of electrolytes, 180
Mercaptoethylguanidine, effects on cardiac norepinephrine, 236
Meritt, D. A., *see* Boyd, E. S., 376
Metabolism, drug, influence of steroids, 139
hepatic, of mevalonate *in vitro*, 151
hepatic, of pyruvate *in vitro*, 151
of acetophenetidin, effect of inducers and inhibitors, 133
of chloroquine derivatives, 482
of cholesterol, effects of epinephrine, 151
of norepinephrine, in immunosympathectomized animals, 273
of norepinephrine, intraneuronal, 207
Metabolites, method of determining pharmacologic activity of, 133
Methazolamide, pharmacology of, 464
Methyldopa, and related compounds, effects on pressor action of tyramine, 242
N-Methylnicotinamide, transport in kidney slices, 159
Methylphenidate, influence on response of aortic strips to norepinephrine, 253
Methyltyrosine, and analogs, as inhibitors of tyrosine hydroxylase and of effects of amphetamine, 339
Mevalonate, hepatic metabolism, *in vitro*, 151
Microsomal enzymes, effects of steroids in mice, 139
Microspectrofluorometric studies, of catecholamines in isolated cat atria, 46
Mills, E., *see* Wang, H.-H., 285
MJ 1999, antagonism of epinephrine-induced cardiac arrhythmias, 32
Monoamine oxidase, role in intraneuronal metabolism of norepinephrine, 207
Monophosphoinositide, brain, effect of drugs on *in vivo* turnover, 307
Morphine, interaction with catecholamines in mouse eye, 103
Muscle, contracture, thiocyanate effects on calcium movement during, 456
Myosin, from muscles treated with ryanodine and iodoacetate, contractile properties of, 445

Nalorphine, effects on respiration in man, 126
Narcotic antagonists, respiratory effects of, 126
Nerves, adrenergic, degeneration of, 66
Neurotransmitter, release by electrical stimulation of heart muscle, 221
Nicotine, effects on superior cervical ganglion, 430
Nictitating membrane, contraction after denervation, 66
denervated, development of supersensitivity to norepinephrine, 73
denervated, norepinephrine content of, 87
Norepinephrine, cardiac, depletion by mercaptoethylguanidine, 236
development of supersensitivity to, in nictitating membrane, 73
disposition and metabolism in immunosympathectomized animals, 273
effect on renal and femoral blood flow, 23
in denervated nictitating membrane, 87
metabolism in nerve, role of monoamine oxidase, 207
redistribution following sympathetic nerve stimulation, 46
storage and synthesis in rat brain after reserpine, 385
supersensitivity to, induced by nerve stimulation, 95
uptake and binding by aortic strips, 253
uptake in neurons of different brain regions, 400

uptake, release and distribution in isolated atria, 196
Nortestosterone, derivatives, effects on microsomal enzyme activity in mice, 139
Novick, W. J., Jr., Stohler, C. M. and Swagzdis, J., 139

Oliver, K. L., *see* Funderburk, W. H., 360
Ordy, J. M., Samorajski, T., Collins, R. L. and Rolsten, C., 110
Ouabain, antagonism of inotropic effect by corticosteroid, 294
effect of cardiac catecholamine depletion on response of heart to, 38

Phenoxybenzamine, interactions with guanethidine and bretylium in splenic nerve, 189
Pilocarpine, effects on superior cervical ganglion, 430
stimulation of canine prostatic secretion, 59
Pirch, J. H., *see* Sullivan, L. P., 168
Placental transfer, of chlorpromazine, in mice, 110
Potassium, renal transport of, 168, 180
Prange, A. J., Jr. and Bakewell, W. E., 409
Procita, L., 445
Pronethalol, influence on pilocarpine-induced prostatic secretion, 59
Prostate gland, secretion, stimulation by pilocarpine, 59
Pyruvate, hepatic metabolism, *in vitro*, 151

Renal electrolyte transport, 168, 180
Reserpine, effects on growth in euthyroid and hyperthyroid rats, 409
effects on norepinephrine uptake and synthesis in rat brain, 385
Respiration, during renal carbonic anhydrase inhibition, 464
Rice, A. J. and Long, J. P., 423
Robinson, B. F., *see* Frommer, P. L., 1
Robinson, R. L., 55
Rogers, J. E., *see* McChesney, E. W., 482
Rogers, L. A., Atkinson, R. A. and Long, J. P., 313
Rolsten, C., *see* Ordy, J. M., 110
Ross, C. R. and Farah, A., 159
Ryanodine, effects on contractile protein of skeletal muscle, 445

Samorajski, T., *see* Ordy, J. M., 110
Sansur, M., *see* Conney, A. H., 133
Schmidt, R. W. and Sullivan, L. P., 180
Schneider, F. H., *see* Gillis, C. N., 46
Schwab, A., *see* Cervoni, P., 196
Schweigerdt, A. K., Stewart, A. H. and Himwich, H. E., 353
Sensitization, of ganglion cells by stimulation, 430
Sharpless, S. K. and Jaffe, J. H., 321
Shekosky, J. M., *see* McChesney, E. W., 482
Smith, A. A., Karmin, M. and Gavitt, J. A., 103
Smith, C. B., 207
Trendelenburg, U., Langer, S. Z. and Tsai, T. H., 87
Smith, E. R., Ilievski, V. and Hadidian, Z., 59
Smooth muscle, effects of antimony compounds, 7
Sodium, renal transport of, 168, 180
Somani, P., Fleming, J. G., Chan, G. K. and Lum, B. K. B., 32
Soroko, F., *see* Conney, A. H., 133
Stavorski, J., *see* Torchiana, M. L., 242
Steroids, 17α-alkylated anabolic, effect on sulfobromophthalein retention in rabbits, 143
influence on drug metabolism in mouse, 139
Stewart, A. H., *see* Schweigerdt, A. K., 353
Stimulation, electrical, effects on toxicity from cardiac glycosides, 1
field, of isolated heart muscle, 221
social, and amphetamine effects in mice, 331
Stohler, C. M., *see* Novick, W. J., Jr., 139
Stone, C. A., *see* Torchiana, M. L., 242
Sulfobromophthalein, effect of anabolic steroids on retention in rabbits, 143
Sullivan, L. P. and Pirch, J. H., 168
see Schmidt, R. W., 180
Supersensitivity, to norepinephrine, from preganglionic stimulation, 95
to norepinephrine, in aortic strips, 253
to norepinephrine, in denervated nictitating membrane, 73
Survival, of mice offspring, effects of prenatal chlorpromazine on, 110
Swagzdis, J., *see* Novick, W. J., Jr., 139
Swain, H. H. and Curtis, G. P., 438
Swinyard, E. A. and Castellion, A. W., 369
Sympathetic nerve, stimulation, effect on norepinephrine-H^3 specific activity and fluorescence of atrial adrenergic fiber, 46

Tanz, R. D. and Marcus, S. M., 38
Telford, J., *see* Keats, A. S., 126
Tenen, S. S., *see* Weissman, A., 339
Teratogenic effects, of prenatal chlorpromazine on mice offspring, 110
Tetrahydrocannabinol derivatives, effects on recovery cycles of cat central nervous system, 376
Thiocyanate, effect on calcium movement during muscle contracture, 456
Thoenen, H., Huerlimann, A. and Haefely, W., 189
Torchiana, M. L., Wenger, H. C., Stavorski, J., Ludden, C. T. and Stone, C. A., 242
Transport, and counter-transport of N-methylnicotinamide and *p*-aminohippurate in kidney slices, 159

renal electrolyte, effects of bendroflumethiazide on, 168
renal electrolyte, effects of meralluride on, 180
Travis, D. M., Wiley, C. and Maren, T. H., 464
Trendelenburg, U., 95
see Langer, S. Z., 73
see Smith, C. B., 87
Tsai, T. H., *see* Smith, C. B., 87
Tyramine, as pressor agent, effects of methyldopa and related agents, 242
release of catecholamines from adrenals by, 55
Tyrosine hydroxylase, inhibition, correlation with antiamphetamine effects of methyltyrosine, 339

Van Orden, L. S., *see* Gillis, C. N., 46
Venoconstriction, induced by acetylcholine, 423
Vogel, J. A., *see* Levine, R. A., 262

Wang, H.-H., Markee, S., Kahn, N., Mills, E. and Wang, S. C., 285
Wang, S. C., *see* Wang, H.-H., 285
Ward, J. W., *see* Funderburk, W. H., 360
Wastila, W. B., *see* Maxwell, R. A., 253
Weissman, A., Koe, B. K. and Tenen, S. S., 339
Welch, A. S., *see* Welch, B. L., 331
Welch, B. L. and Welch, A. S., 331
Wenger, H. C., *see* Torchiana, M. L., 242
Wiley, C., *see* Travis, D. M., 464

VOLUME 151 JANUARY–MARCH 1966

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*
I. M. WEINER: *Renal Pharmacology*
K. P. DUBOIS: *Toxicology*

CONTENTS OF VOLUME 151

No. 1, January 1966

Studies on Digitalis. XII. The Effects of Paired Electrical Stimulation on Digitalis-Induced Arrhythmias. Peter L. Frommer, Brian F. Robinson and Eugene Braunwald 1

Effects of Antimony on the Cardiovascular System and Intestinal Smooth Muscle. Marion deV. Cotten and Mary Ella Logan 7

Comparison of the Effects of Dopamine, Isoproterenol, Norepinephrine and Bradykinin on Canine Renal and Femoral Blood Flow. John L. McNay and Leon I. Goldberg 23

Antagonism of Epinephrine-Induced Cardiac Arrhythmias by 4-(2-Isopropylamino-1-Hydroxyethyl)-Methanesulfonanilide (MJ 1999). P. Somani, James G. Fleming, Gregory K. Chan and Bert K. B. Lum 32

Influence of Endogenous Cardiac Catecholamine Depletion on the Force and Rate of Isolated Heart Preparations and Their Response to Ouabain. Ralph D. Tanz and Steven M. Marcus 38

Biochemical and Microfluorometric Studies of Norepinephrine Redistribution Accompanying Sympathetic Nerve Stimulation. C. N. Gillis, F. H. Schneider, L. S. Van Orden and N. J. Giarman 46

Stimulation of the Release of Catecholamines from Isolated Adrenal Glands by Tyramine. Robert L. Robinson 55

The Stimulation of Canine Prostatic Secretion by Pilocarpine. Emil R. Smith, Vladimir Ilievski and Zareh Hadidian 59

The Degeneration Contraction of the Nictitating Membrane in the Unanesthetized Cat. S. Z. Langer 66

The Onset of Denervation Supersensitivity. S. Z. Langer and U. Trendelenburg .. 73

The Relation of Retention of Norepinephrine-H^3 to the Norepinephrine Content of the Nictitating Membrane of the Spinal Cat during Development of Denervation Supersensitivity. Charles B. Smith, U. Trendelenburg, S. Z. Langer and T. H. Tsai 87

Supersensitivity to Norepinephrine Induced by Continuous Nerve Stimulation. U. Trendelenburg 95

Interaction of Catecholamines with Levorphanol and Morphine in the Mouse Eye. Alfred A. Smith, Meta Karmin and Jo Ann Gavitt 103

Prenatal Chlorpromazine Effects on Liver, Survival and Behavior of Mice Offspring. J. M. Ordy, T. Samorajski, R. L. Collins and C. Rolsten 110

Studies of Analgesic Drugs. X. Respiratory Effects of Narcotic Antagonists. Arthur S. Keats and Jane Telford 126

Enzyme Induction and Inhibition in Studies on the Pharmacological Actions of Acetophenetidin. A. H. Conney, M. Sansur, F. Soroko, R. Koster and J. J. Burns. 133

The Influence of Steroids on Drug Metabolism in the Mouse. William J. Novick, Jr., Carl M. Stohler and James Swagzdis 139

Relative Effects of 17α-Alkylated Anabolic Steroids on Sulfobromophthalein (BSP) Retention in Rabbits. Harry D. Lennen 143

Epinephrine and Cholesterol Metabolism in the Dog. Hepatic Metabolism of Pyruvate and Mevalonate *in Vitro*. Joseph H. Gans 151

No. 2, February 1966

p-Aminohippurate and N-Methylnicotinamide Transport in Dog Renal Slices—An Evaluation of the Counter-Transport Hypothesis. Charles R. Ross and A. Farah 159

Effect of Bendroflumethiazide on Distal Nephron Transport of Sodium, Potassium and Chloride. Lawrence P. Sullivan and James H. Pirch 168

Effect of Meralluride on Distal Nephron Transport of Sodium, Potassium and Chloride. Ramon W. Schmidt and Lawrence P. Sullivan 180

Interaction of Phenoxybenzamine with Guanethidine and Bretylium at the Sympathetic Nerve Endings of the Isolated Perfused Spleen of the Cat. H. Thoenen, A. Huerlimann and W. Haefely 189
The Effect of Drugs on Uptake and Release of Catecholamines in the Isolated Left Atrium of the Guinea Pig. Peter Cervoni, S. M. Kirpekar and A. Schwab .. 196
The Role of Monoamine Oxidase in the Intraneuronal Metabolism of Norepinephrine Released by Indirectly-Acting Sympathomimetic Amines or by Adrenergic Nerve Stimulation. Charles B. Smith 207
Field Stimulation as a Means of Effecting the Graded Release of Autonomic Transmitters in Isolated Heart Muscle. John R. Blinks 221
Depletion of Cardiac Norepinephrine in the Mouse and Cat by Mercaptoethylguanidine. Victor DiStefano and Janet J. Klahn 236
Effect of Methyldopa and Related Agents on Pressor Responses to Tyramine in Reserpine-Pretreated Rats and Dogs. Mary Lou Torchiana, Herbert C. Wenger, John Stavorski, C. T. Ludden and Clement A. Stone 242
Some Factors Determining the Response of Rabbit Aortic Strips to *dl*-Norepinephrine-7-H^3 Hydrochloride and the Influence of Cocaine, Guanethidine and Methylphenidate on These Factors. R. A. Maxwell, W. B. Wastila and S. B. Eckhardt 253
Cardiovascular and Metabolic Effects of Cyclic Adenosine 3′,5′-Monophosphate in Unanesthetized Dogs. Robert A. Levine and James A. Vogel 262
The Physiologic Disposition and Metabolism of Norepinephrine in Immunosympathectomized Animals. Leslie L. Iversen, Jacques Glowinski and Julius Axelrod 273
Mechanism of Hypotensive Action of Mebutamate. Hsueh-Hwa Wang, Shirley Markee, Norman Kahn, Elliott Mills and S. C. Wang 285
Corticosteroid Antagonism of the Positive Inotropic Effect of Ouabain. Allan M. Lefer 294
Cardiac Seasonal Variation, a Qualitative Change in Pharmacologic Response to Ethylenediamine. Harold F. Hardman and Pojana Bukhamana 300
The Effect of Cholinergic and Other Pharmacologic Agents on Brain Monophosphoinositide Turnover *in Vivo*. Richard U. Margolis and Alfred Heller 307
Effects of Various Autonomic Drugs on Isolated, Perfused Mesenteric Arteries. Larry A. Rogers, Richard A. Atkinson and J. P. Long 313
The Electrical Excitability of Isolated Cortex during Barbiturate Withdrawal. Seth K. Sharpless and Jerome H. Jaffe 321
Erratum 330

No. 3, March 1966

Graded Effect of Social Stimulation upon *d*-Amphetamine Toxicity, Aggressiveness and Heart and Adrenal Weight. Bruce L. Welch and Annemarie S. Welch 331
Antiamphetamine Effects following Inhibition of Tyrosine Hydroxylase. Albert Weissman, B. Kenneth Koe and Stanley S. Tenen 339
An Electrographic Study of *d*-Lysergic Acid Diethylamide and Nine Congeners. Arlene K. Schweigerdt, Ann H. Stewart and Harold E. Himwich 353
Electrophysiologic Analysis of the Site of Action of Doxapram Hydrochloride. William H. Funderburk, Katharine L. Oliver and John W. Ward 360
Anticonvulsant Properties of Some Benzodiazepines. Ewart A. Swinyard and Alan W. Castellion 369
Effects of Barbiturates and a Tetrahydrocannabinol Derivative on Recovery Cycles of Medial Lemniscus, Thalamus and Reticular Formation in the Cat. E. S. Boyd and D. A. Meritt 376
Storage and Synthesis of Norepinephrine in the Reserpine-Treated Rat Brain. Jacques Glowinski, Leslie L. Iversen and Julius Axelrod 385
Uptake of Exogenous Catecholamines by Monoamine-Containing Neurons of the Central Nervous System: Uptake of Catecholamines by Arcuato-Infundibular Neurons. Walter Lichtensteiger and Heinrich Langemann 400

Effects of Imipramine and Reserpine on Body Size and Organ Size in Euthyroid and Hyperthyroid Growing Rats. ARTHUR J. PRANGE, JR. AND WILLIAM E. BAKEWELL. 409
The Adrenergic Blocking Activity of N-*tert.*-Butylmethoxamine (Butoxamine). BERNARD LEVY 413
An Unusual Venoconstriction Induced by Acetylcholine. A. J. RICE AND J. P. LONG .. 423
Comparison of the Stimulating Effects of Nicotine, Pilocarpine and Histamine on the Superior Cervical Ganglion of the Cat. LOUIS C. IORIO AND ROBERT J. MCISAAC .. 430
The Use of Hypertonic Solutions to Produce Atrial Fibrillation in the Dog Heart-Lung Preparation. HENRY H. SWAIN AND GUY P. CURTIS 438
The Contraction and Extraction Characteristics of Contractile Proteins from *in Vivo* Ryanodine-Rigored and Iodoacetic Acid-Rigored Skeletal Muscle. LEONARD PROCITA 445
Effect of Thiocyanate on Radiocalcium Uptake during Potassium Contracture of Frog Sartorius Muscle. C. PAUL BIANCHI AND T. C. BOLTON 456
Respiration during Chronic Inhibition of Renal Carbonic Anhydrase: Further Observations on Pharmacology of 2-Benzenesulfonamido-1,3,4-Thiadiazole-5-Sulfonamide (CL 11,366), Acetazolamide and Methazolamide. DAVID M. TRAVIS, CHRISTINE WILEY AND THOMAS H. MAREN 464
Studies of the Metabolism of Some Compounds of the 4-Amino-7-Chloroquinoline Series. E. W. MCCHESNEY, W. D. CONWAY, W. F. BANKS, JR., J. E. ROGERS AND J. M. SHEKOSKY 482
Index, Volume 151, January–March 1966 495

INDEX

Volume 152, April–June 1966

Acetic acid, effect with protoverine esters on frog muscle, 95
Acetophenetidin, metabolism by human liver enzymes, 151
Acetylcholine, effect on motor nerve terminal, 397
  role of calcium in ganglionic response, 171
Acid-base balance, effects of DMO, 62
Adipose tissue, effect of melatonin on glycerol release *in vitro*, 298
Adrenalectomy, influence on local anesthesia of peripheral nerves, 417
Adrenergic *beta* receptors, role in free fatty acid release, 425
Adrenergic blocking agents, effects on epinephrine- and ouabain-induced cardiac arrhythmias, 235
Alkali metals, effect on isolated human uterine muscle, 231
Amine-induced cardiac phosphorylase action, 478
Aminoazobenzene, metabolism by human liver enzymes, 151
Amphetamine, effect on pigeon behavior, 388
  -C^{14}, metabolism in various species, 383
Anagnoste, B., *see* Musacchio, J. M., 56
Anbar, M., *see* Shtacher, G., 157
Anesthesia, effect on catecholamine stores in hypothalamus and heart, 445
  local, effect of adrenalectomy on, 417
  local, effects on calcium exchange in rat uterus, 516
Antihistamines, and cocaine, effects on responses to autonomic agents, 458
  cocaine-like effects, 458
  effect on phosphorylase action in cardiac muscle, 478
Antirheumatic drugs, antiinflammatory effects on adjuvant-induced polyarthritis in rats, 116
Arrhythmias, blockade in dog heart-lung preparation, 235
  effect of neural factors, 88
  effects of *alpha* and *beta* receptor blocking agents, 235
  epinephrine- and ouabain-induced, effect of blocking agents, 235
  induced by halopropane, 88
Artery, internal carotid, regional pharmacologic responses, 251
  vertebral, regional pharmacologic responses, 251
Aston, R., 350
Atropine, antagonism of nictitating membrane response to sympathetic nerve stimulation, 186
Axelrod, J., *see* Glowinski, J., 282

Barchas, J., *see* Vaughan, M., 298
Barnett, A. and Benforado, J. M., 29
Bass, P., Purdon, R. A., Patterson, M. A. and Butler, D. E., 104
Batra, K. V., Elrod, L. M. and Schrek, R., 525
Bear, W. T., *see* Vogin, E. E., 509
Behavior, pigeon, effect of internal and external stimuli, 388
Benforado, J. M., *see* Barnett, A., 29
Benzothiadiazines, transport by renal tubules, 122
3,4-Benzpyrene, metabolism by human liver enzymes, 151
Berman, D. A., 75
Bevan, J. A. and Verity, M. A., 221
Bhagat, B., *see* Musacchio, J. M., 293
Biotransformation, of tritiated digoxin, 372
Bipyridine, gastric antisecretory and gastrointestinal effects of, 104
Blood flow, cerebral, changes from pressor and depressor agents, 251
Blood glucose, level, influence on effects of hydrazine on free fatty acid transport, 529
Bohner, B., *see* Chen, G., 332
Bone tissues, affinity of chelating agents for, 157
Botton, I., Kinnard, W. J. and Buckley, J. P., 243
Boyd, J., *see* Vogin, E. E., 509
Brand, L., *see* Kuntzman, R., 151
Bretylium, effects of cocaine and antihistamines on cardiovascular actions of, 458
Brodie, B. B., Comer, M. S., Costa, E. and Dlabac, A., 340
  see Titus, E. O., 469
Brody, T. M., *see* Diamond, J., 202, 212
  see McNeill, J. H., 478
Buckley, J. P., *see* Botton, I., 243
Butler, D. E., *see* Bass, P., 104
Butler, T. C., Kuroiwa, Y., Waddell, W. J. and Poole, D. T., 62

Calcium, chelation and bone accumulation, 157
  influence on inotropic effects of fluoride, 75
  role in action of hemicholinium, 1
  role in ganglionic responses to acetylcholine, 171
Calcium exchange, in uterus, effects of local anesthetics, 516
Carcinogens, metabolism by human liver enzymes, 151
Cardiac glycosides, influence on cardiovascular responses to norepinephrine in hypothermic dogs, 488
  structure, central and lethal effects, 501
Cardiac pacemakers, sensitivity to quinidine, 67

Cardiovascular function, of cardiac muscle during norepinephrine-induced depression, 488
Carotid body, human, demonstration of catecholamines and 5-hydroxytryptamine in, 197
Catecholamines, binding in rat uterus, 439
demonstration in human carotid body, 197
depleted by β-heptamethyleniminoethylaminoguanidine sulfate, 243
effect of postganglionic stimulation on response of decentralized nictitating membrane to, 8
effect of reserpine on levels in fetal rats, 37
effect on smooth muscle motility and phosphorylase activity, 202
efflux from rat uterus, 439
excretion, effect of inhibition of dopa decarboxylase, 432
stores, in hypothalamus and heart, after anesthetics, tranquilizers and stress, 445
transport by rat uterus, 42
Cations, effect on isolated human uterine muscle, 231
Central nervous system, effects of CI-581 on, 332
neural pathway to thyroid, 325
Cervoni, P. and Kirpekar, S. M., 8
Cesium, effect on isolated human uterine muscle, 231
Chelating agents, accumulation in bone, 157
Chen, G., Ensor, C. R. and Bohner, B., 332
Hg^{203}-Chlormerodrin, distribution in kidney, relations with diuresis, 130
Chlorothiazide, accumulation by isolated renal tubules, 122
Chlorpromazine, effect on pigeon behavior, 388
Choline esters, nicotinic effects on guinea pig atria, 29
Cholinesterase inhibitors, effects on tibialis anterior and superior rectus muscles, 304
CI-581, pharmacology of, 332
Cloud, R. S., *see* Ward, J. R., 116
Cocaine, and antihistamines, effects on responses to autonomic agents, 458
effect on phosphorylase action in cardiac muscle, 478
Comer, M. S., *see* Brodie, B. B., 340
Condouris, G. A. and Lagomarsino, W. R., 417
Coniine, effects on peripheral and central synaptic transmission, 313
Conney, A. H., *see* Kuntzman, R., 151
Costa, E., *see* Brodie, B. B., 340
Cotten, M. deV., *see* Moore, J. I., 488

Delahunt, C. S., *see* Schach von Wittenau, 164
Desmethylimipramine, effects on norepinephrine uptake by heart, 469
Detoxication, of drugs and carcinogens, 151
Diamond, J. and Brody, T. M., 202, 212
Dichloroisoproterenol, role in free fatty acid release, 425
Digitoxin, and related compounds, central and lethal effects, 501
Digoxin, and related compounds, central and lethal effects, 501
-H^3, metabolism in renal insufficiency, 372
DiStefano, V., *see* Gangarosa, L. P., 325
Disulfiram, effect on reserpine-treated cat, 293
effect on restoration of catecholamine response to tyramine, 293
inhibition *in vivo* of dopamine-β-hydroxylase, 56
Diuresis, relation to intrarenal distribution of Hg^{203}-chlormerodrin, 130
Dlabac, A., *see* Brodie, B. B., 340
DMO, effects on acid-base and electrolyte equilibria, 62
Dopa decarboxylase inhibitor, influence on urinary excretion of catecholamines, 432
Dopamine, and response to tyramine, effect of disulfiram, 293
distribution and release by sympathetic nerve stimulation, 51
-β-hydroxylase, inhibition *in vivo* by disulfiram, 56
Duggan, D. E., 122
Dvornik, D., *see* Zsoter, T., 425

Eakins, K. E., *see* Katz, R. L., 304
Electrolyte balance, effects of DMO, 62
Ellison, T., Gutzait, L. and Van Loon, E. J., 383
Elrod, L. M., *see* Batra, K. V., 525
Ensor, C. R., *see* Chen, G., 332
Enzymes, drug metabolism by, 151
Epinephrine, effect in production of thrombohemorrhagic lesions, 275
effect of reserpine on levels of, 37
-induced cardiac arrhythmias, effect of blocking agents, 235
-induced hyperglycemia, role of a neural pathway from CNS to thyroid, 325
labeled, efflux from rat uterus, 439
transport by rat uterus, 42
Esplin, D. W., *see* Sampson, S. R., 313

Feinstein, M. B., 516
Fischer, J. E., *see* Musacchio, J. M., 51
Flacke, W., *see* Gujral, P. K., 95
Fluoride, effect of calcium, strontium and magnesium on inotropic action, 75
Fouts, J. R., *see* Gram, T. E., 363

Gabbiani, G., Jacqmin, M. L. and Selye, H., 275
Gangarosa, L. P. and DiStefano, V., 325
Ganglion, blockade by tetramethylammonium, 18
blocking action of some methylpiperidines, 181
role of calcium in responses to acetylcholine, 171
Ganglionic blocking agents, effects on guinea pig atria, 29

Gebber, G. L. and Volle, R. L., 18
Glowinski, J., Snyder, S. H. and Axelrod, J., 282
Glycerol, release from adipose tissue, effect of melatonin, 298
Goldstein, M., *see* Musacchio, J. M., 56
Goldstein, M. H., *see* Littman, E., 130
Gram, T. E. and Fouts, J. R., 363
Green, R. D., III and Miller, J. W., 42, 439
Gujral, P. K. and Flacke, W., 95
Gutzait, L., *see* Ellison, T., 383

Halopropane-induced cardiac arrhythmias, 88
Hamberger, B., Ritzén, M. and Wersäll, J., 197
Handa J., Meyer, J. S. and Yoshida, K., 251
Heart, effects of desmethylimipramine on norepinephrine uptake, 469
muscle, cardiovascular responses during norepinephrine-induced depression, 488
muscle, effect of antihistamines, cocaine and reserpine on phosphorylase action, 478
Hemicholinium, action, dependence on calcium concentration, 1
β-Heptamethyleniminoethylaminoguanidine sulfate, hypotensive activity, 243
Hydrazine, effects on free fatty acid metabolism, 529
5-Hydroxytryptamine, demonstration in human carotid body, 197
Hyperglycemia, epinephrine-induced, role of a neural pathway from CNS to thyroid, 325
Hypotension, effects of β-heptamethyleniminoethylaminoguanidine, 243

Iminodiacetic acids, chelation with bone calcium, 157
Indocyanine green, clearance, effects of probenecid, 509

Mark, L. C., *see* Kuntzman, R., 151
Mattis, P. A., *see* Vogin, E. E., 509
Matussek, N., *see* Titus, E. O., 469
McNeill, J. H. and Brody, T. M., 478
Melatonin, effect on glycerol release from rat adipose tissue, 298
Metabolism, of *d*-amphetamine-C^{14}, 383
of drugs, by microsomal enzymes, 363
of drugs and carcinogens, by human liver enzymes, 151
of FFA, effects of hydrazine, 529
of NSC 57153, 139
of NSC 67734, 139
of phthalanilide congeners, 139
of tritiated digoxin, in renal insufficiency, 372
α-Methyldopa, and response to tyramine, effect of disulfiram, 293
α-Methyldopamine, subcellular distribution and release by symphathetic nerve stimulation, 51
Methylpiperidines, ganglionic blocking action, 181
Meyer, J. S., *see* Handa, J., 251
Microsomal enzymes, activity, species variation, 363
Miller, J. W., *see* Green, R. D., III, 42, 439
MJ-1999, role in free fatty acid release, 425
Monti, J. M., *see* Vidal-Beretervide, K., 181
Moore, J. I. and Cotten, M. deV., 488
Motor nerve terminal, site of acetylcholine action, 397
Musacchio, J. M., Bhagat, B., Jackson, C. J. and Kopin, I. J., 293
Fischer, J. E. and Kopin, I. J., 51
Goldstein, M., Anagnoste, B., Poch, G. and Kopin, I. J., 56
Muscle, sartorius, effect of protoverine esters on, 95
superior rectus, effects of neuromuscular blocking agents and cholinesterase inhibitors on, 304

tibialis anterior, effects of neuromuscular blocking agents and cholinesterase inhibitors on, 304
uterine, contraction, caused by alkali metals, 231

Nerves, peripheral, influence of adrenalectomy on local anesthesia of, 417
Neuromuscular blocking agents, effects on tibialis anterior and superior rectus muscles, 304
Neuromuscular transmission, role of acetylcholine, 397
Nicotine, effects on guinea pig atria, 29
Nictitating membrane, atropine antagonism to sympathetic nerve stimulation, 186
decentralized, effect of postganglionic stimulation on response to catecholamines, 8
Norepinephrine, effect of cocaine and antihistamines on cardiovascular actions of, 458
effect of desmethylimipramine on uptake by heart, 469
effect of reserpine on levels of, 37
effect on efflux of labeled catecholamines from rat uterus, 439
in hypothermic dogs, influence of cardiac glycosides, 488
in rat brain, effect of drugs, 282
labeled, efflux from rat uterus, 439
subcellular localization in rat brain, 282
transport by rat uterus, 42
NSC 57153, metabolism of, 139
NSC 67734, metabolism of, 139
Nucleotide content, of cardiac muscle during norepinephrine-induced depression, 488
Nye, C. E. and Roberts, J., 67

Ordy, J. M., Samorajski, T. and Schroeder, D., 445
Ouabain-induced cardiac arrhythmias, effect of blocking agents, 235
Oxygen, extraction, by cardiac muscle during norepinephrine-induced depression, 488

Pappano, A. J. and Volle, R. L., 171
Patterson, M. A., *see* Bass, P., 104
Pentobarbital, acute tolerance indices, 350
effect on pigeon behavior, 388
metabolism by human liver enzymes, 151
Peterson, A., *see* Marcus, F. I., 372
Phenothiazines, effects on chain and tandem schedule performance of pigeons, 354
Phosphorylase activity, effect of antihistamines, cocaine and reserpine in cardiac muscle, 478
effect of catecholamines, 202
in smooth muscle, effects of stimulants, 212
relationship with smooth muscle contraction, 212
Phthalanilide congeners, metabolism of, 139
Plasma free fatty acids, effects of adrenergic receptor blocking agents on, 425
Poch, G., *see* Musacchio, J. M., 56
Polyarthritis, adjuvant-induced, effects of antirheumatic drugs, 116
Poole, D. T., *see* Butler, T. C., 62
Postganglionic sympathetic delay, in vascular smooth muscle, 221
Potassium, effect on isolated human uterine muscle, 231
Prednisolone, *in vitro* effects on lymphocytes of various species, 525
Pritzker, K., *see* Johnson, G. E., 432
Probenecid, effects on indocyanine green clearance, 509
Promazine, effect on pigeon behavior, 388
Pronethalol, role in free fatty acid release, 425
Propranolol, role in free fatty acid release, 425
Protoverine esters, effect, with acetic acid, on frog muscle, 95
Purdon, R. A., *see* Bass, P., 104

Quinidine, effects on atrial and ventricular pacemakers, 67

Rare earth salts, effect in production of thrombohemorrhagic lesions, 275
Reas, H. W. and Tsai, T. H., 186
Renal insufficiency, and metabolism of tritiated digoxin, 372
Renal tubules, accumulation of chlorothiazide and saluretic agents, 122
transport of benzothiadiazines, 122
Reserpine, effect on catecholamine levels in fetal rats, 37
effect on efflux of labeled catecholamines from rat uterus, 439
effect on phosphorylase action in cardiac muscle, 478
influence on nicotinic effects in atria, 29
relations of central effects to serotonin release, 340
Riker, W. F., Jr., 397
Ritzén, M., *see* Hamberger, B., 197
Ro4-4602, influence on urinary excretion of catecholamines, 432

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*
I. M. WEINER: *Renal Pharmacology*
K. P. DUBOIS: *Toxicology*

CONTENTS OF VOLUME 152

No. 1, April 1966

Dependence of Hemicholinium Action on Calcium Concentration. Frank F. Vincenzi and Theodore C. West 1

Studies on the Decentralized Nictitating Membrane of the Cat. I. Effect of Postganglionic Electrical Stimulation on the Response to Exogenous Catecholamines. Peter Cervoni and S. M. Kirpekar 18

The Nicotinic Effects of Choline Esters and of Nicotine in Guinea Pig Atria. Allen Barnett and Joseph M. Benforado 29

The Effect of Reserpine on Catecholamine Levels in the Gravid Rat and Its Offspring. Beverly Kovacic and Robert L. Robinson 37

Evidence for the Active Transport of Epinephrine and Norepinephrine by the Uterus of the Rat. Richard D. Green, III and Jack W. Miller 42

Subcellular Distribution and Release by Sympathetic Nerve Stimulation of Dopamine and α-Methyl Dopamine. Jose M. Musacchio, Josef E. Fischer and Irwin J. Kopin 51

Inhibition of Dopamine-β-Hydroxylase by Disulfiram *in Vivo*. J. M. Musacchio, M. Goldstein, B. Anagnoste, G. Poch and I. J. Kopin 56

Effects of 5,5-Dimethyl-2,4-Oxazolidinedione (DMO) on Acid-Base and Electrolyte Equilibria. Thomas C. Butler, Yukio Kuroiwa, William J. Waddell and Doris T. Poole 62

The Reactivity of Atrial and Ventricular Pacemakers to Quinidine. Charles Erik Nye and Jay Roberts 67

Effect of Calcium, Strontium and Magnesium on the Positive Inotropic Action of Fluoride. David A. Berman 75

Sympathetic Vasodilatation in the Dog's Paw. Ben G. Zimmerman 81

Neural Factors Affecting Cardiac Arrhythmias Induced by Halopropane. Ronald L. Katz 88

Studies on Veratrum Alkaloids. XLI. The Action of Some Esters of Protoverine with Acetic Acid on the Sartorius Muscle of the Frog. Pramod K. Gujral and Werner Flacke 95

Gastric Antisecretory and Other Pharmacologic Studies on 2,2′-Bipyridine. Paul Bass, R. A. Purdon, M. A. Patterson and D. E. Butler 104

Comparative Effect of Antirheumatic Drugs on Adjuvant-Induced Polyarthritis in Rats. John R. Ward and R. Sidney Cloud 116

The Accumulation of Chlorothiazide and Related Saluretic Agents by Isolated Renal Tubules. Daniel E. Duggan 122

The Relationship of the Intrarenal Distribution of Hg^{203}-Chlormerodrin to the Diuretic Effect. Edward Littman, Marvin H. Goldstein, Leonard Kasen, Marvin F. Levitt and Richard P. Wedeen 130

Physiologic Disposition of 4′,4″-Bis(1,4,5,6-Tetrahydro-2-Pyrimidinyl)Terephthalanilide and 4-(1,4,5,6-Tetrahydro-2-Pyrimidinyl)-4′-[*p*-(1,4,5,6-Tetrahydro-2-Pyrimidinyl)Phenyl]Carbamoylbenzanilide in Dogs, Monkeys, Rats, and Mice. W. I. Rogers, D. W. Yesair and C. J. Kensler 139

Metabolism of Drugs and Carcinogens by Human Liver Enzymes. R. Kuntzman, L. C. Mark, L. Brand, M. Jacobson, W. Levin and A. H. Conney 151

The Accumulation of Synthetic Chelating Agents in Osseous Tissues. Gad Shtacher and Michael Anbar 157

The Distribution of Tetracyclines in Tissues of Dogs after Repeated Oral Administration. M. Schach von Wittenau and C. S. Delahunt 164

No. 2, May 1966

Observations on the Role of Calcium Ions in Ganglionic Responses to Acetylcholine. Achilles J. Pappano and Robert L. Volle 171

Ganglionic Blocking Action of Some Methylpiperidines. K. Vidal-Beretervide, J. M. Monti, R. Ruggia and H. Trinidad 181
The Antagonism by Atropine of the Response of the Nictitating Membrane to Sympathetic Nerve Stimulation. H. W. Reas and T. H. Tsai 186
Demonstration of Catecholamines and 5-Hydroxytryptamine in the Human Carotid Body. Bertil Hamberger, Martin Ritzén and Jan Wersäll 197
Effect of Catecholamines on Smooth Muscle Motility and Phosphorylase Activity. Jack Diamond and Theodore M. Brody 202
Relationship between Smooth Muscle Contraction and Phosphorylase Activity. Jack Diamond and Theodore M. Brody 212
Postganglionic Sympathetic Delay in Vascular Smooth Muscle. John A. Bevan and M. Anthony Verity 221
Effects of Cesium, Potassium and Rubidium on Development of Tension in Isolated Human Uterine Muscle. Ira Rosenblum, Arthur A. Stein and Joyce L. Story 231
Blockade of Epinephrine- and Ouabain-Induced Cardiac Arrythmias in the Dog Heart-Lung Preparation. P. Somani and Bert K. B. Lum 235
Hypotensive Activity of β-Heptamethyleniminoethylaminoguanidine Sulfate. Irving Botton, William J. Kinnard and Joseph P. Buckley 243
Regional Pharmacologic Responses of the Vertebral and Internal Carotid Arteries. Jyoji Handa, John S. Meyer and Kouzo Yoshida 251
The Cardiovascular Pharmacology of Lidoflazine, a Long-Acting Coronary Vasodilator. Wolfgang K. A. Schaper, Raymond Xhoenneux, Anton H. M. Jageneau and Paul A. J. Janssen 265
Thrombohemorrhagic Lesions Induced by Combined Treatment with Rare Earth Metals and Epinephrine. G. Gabbiani, M. L. Jacqmin and H. Selye 275
Subcellular Localization of H^3-Norepinephrine in the Rat Brain and the Effect of Drugs. J. Glowinski, S. H. Snyder and J. Axelrod 282
The Effect of Disulfiram on the Restoration of the Response to Tyramine by Dopamine and α-Methyldopa in the Reserpine-Treated Cat. Jose M. Musacchio, B. Bhagat, C. J. Jackson and Irwin J. Kopin 293
Effects of Melatonin and Related Compounds on the Release of Glycerol from Rat Adipose Tissue *in Vitro*. Martha Vaughan and Jack Barchas 298
A Comparison of the Effects of Neuromuscular Blocking Agents and Cholinesterase Inhibitors on the Tibialis Anterior and Superior Rectus Muscles of the Cat. Ronald L. Katz and Kenneth E. Eakins 304
Effects of Coniine on Peripheral and Central Synaptic Transmission. S. R. Sampson, Don W. Esplin and Barbara Zablocka 313
Participation of a CNS-Thyroid Neural Pathway in Epinephrine-Induced Hyperglycemia in the Cat. Louis P. Gangarosa and Victor DiStefano 325
The Neuropharmacology of 2-(*o*-Chlorophenyl)-2-Methylaminocyclohexanone Hydrochloride. Graham Chen, Charles R. Ensor and Barbara Bohner 332
The Role of Brain Serotonin in the Mechanism of the Central Action of Reserpine. B. B. Brodie, M. S. Comer, E. Costa and A. Dlabac 340
Acute Tolerance Indices for Pentobarbital in Male and Female Rats. Roy Aston 350
Differential Effects of Two Phenothiazines on Chain and Tandem Schedule Performance. John R. Thomas 354

No. 3, June 1966

Time Course Differences in the Metabolism of Drugs by Hepatic Microsomes from Rats, Rabbits and Mice. Theodore E. Gram and James R. Fouts 363
The Metabolism of Tritiated Digoxin in Renal Insufficiency in Dogs and Man. Frank I. Marcus, Ann Peterson, Anton Salel, Jay Scully and Geeta G. Kapadia 372
The Comparative Metabolism of *d*-Amphetamine-C^{14} in the Rat, Dog and Monkey. Theodore Ellison, Louis Gutzait and Edward J. Van Loon 383
Influence of Drugs on Behavior Controlled by Internal and External Stimuli. Victor G. Laties and Bernard Weiss 388
Actions of Acetylcholine on Mammalian Motor Nerve Terminal. Walter F. Riker, Jr. 397

Adrenalectomy in Rats and Its Influence on Local Anesthesia of Peripheral Nerves. G. A. Condouris and W. E. Lagomarsino 417
Adrenergic *Beta* Receptors and Plasma Free Fatty Acids. T. Zsoter, Helen Tom, M. Kraml and D. Dvornik 425
The Influence of the Dopa Decarboxylase Inhibitor Ro4-4602 on the Urinary Excretion of Catecholamines in Cold-Stressed Rats. G. E. Johnson and K. Pritzker .. 432
The Effect of Various Substances on the Efflux of Labeled Catecholamines from the Uterus of the Rat. Richard D. Green, III and Jack W. Miller 439
Concurrent Changes in Hypothalamic and Cardiac Catecholamine Levels after Anesthetics, Tranquilizers and Stress in a Subhuman Primate. J. M. Ordy, T. Samorajski and D. Schroeder 445
Cocaine and Antihistaminic Compounds: Comparison of Effects on Some Cardiovascular Actions of Norepinephrine, Tyramine and Bretylium. G. L. Johnson and J. B. Kahn, Jr. 458
The Effects of Desmethylimipramine on Uptake of *dl*-Norepinephrine-7-H^3 in the Heart. Elwood O. Titus, Norbert Matussek, Herbert E. Spiegel and Bernard B. Brodie 469
The Effect of Antihistaminics, Cocaine and Reserpine on Amine-Induced Rat Cardiac Phosphorylase Activation. John H. McNeill and Theodore M. Brody 478
Cardiovascular Function, Oxygen Extraction and Labile Nucleotide Content of Cardiac Muscle during Norepinephrine-Induced Depression of Digitalized, Hypothermic Dog Heart Muscle. Joanne I. Moore and Marion deV. Cotten 488
Structure-Activity Correlation of the Lethality and Central Effects of Selected Cardiac Glycosides. G. L. Lage and J. L. Spratt 501
Effect of Probenecid on Indocyanine Green Clearance. E. E. Vogin, W. Scott, J. Boyd, W. T. Bear and P. A. Mattis 509
Inhibition of Contraction and Calcium Exchangeability in Rat Uterus by Local Anesthetics. Maurice B. Feinstein 516
Species Differences in the *in Vitro* Sensitivity of Lymphocytes to Prednisolone and X-Rays. Karam V. Batra, Lloyd M. Elrod and Robert Schrek 525
Effects of Hydrazine on Fat Transport as Affected by Blood Glucose Concentration. David L. Trout 529
Index, Volume 152, April–June 1966 535

INDEX

Volume 153, July–September 1966

Ablation, cortical, effect on sensitivity to flurothyl, 396
Acetylcholine
  effects on spinal cord interneurons, 420
  interaction with bretylium at sympathetic nerve endings, 523
Acid-base balance, effect of hydrazine, 562
Adenine nucleotides, antidiuretic effects, 329
Adenosine
  endogenous derivatives, renal effects, 329
  3′,5′-monophosphate, and hormone-induced lipolysis, 90
Adler, M. W., 396
Adrenergic system, involvement in histamine deaths in guinea pig, 538
Afferent nerves, antagonism of lobeline by ganglion-blocking agents, 1
Aguilar, S. R., *see* Monroe, R. G., 455
Aho, I., *see* Forland, M., 142
Alpha receptors, effect of sympathetic denervation of nictitating membrane, 48
Amino acids
  chronotropic action, 197
  effect on sinoatrial nodal rate, 197
Amobarbital, effect on sinoatrial nodal rate, 511
Amphetamine, blockade of pressor response to tyramine in reserpine-treated dog, 62
Analgesia, morphine, significance of calcium ion, 134
Analgesics, pharmacologic studies, 134
Anderson, E. G. and Shibuya, T., 352
Anesthesia, effects on functional refractory period of atrioventricular system, 505
Anesthetics, effects on circulatory regulatory mechanisms, 495
Angiotensin
  cardiovascular effects, 485
  interrelationship with central nervous system, 530
Antidiuretic hormone, and diuresis from cyclophosphamide and nor-nitrogen mustard, 550
Antihistamines, specificity and role of adrenergic system, 538
Antiinflammatory agents, modification of mycobacterial adjuvant periarthritis, 373
Antimuscarinic agents, effects on responses to increased intracranial pressure, 285
Anton, A. H. and Sayre, D. F., 15
Aorta
  relationships between electrical and mechanical events, 466
  strips, supersensitivity from reserpine pretreatment, 70
Arrhythmias, in isolated cardiac muscle cells, 203
Atria, response to tyramine and 1,1-dimethyl-4-piperazinium after reserpine, 434
Axelrod, J., *see* Glowinski, J., 30
  see Snyder, S. H., 8, 544

Baldessarini, R. J., *see* Snyder, S. H., 544
Barbiturates
  chronotropic effects, 511
  effects on sinoatrial node, 511
Bass, P., Purdon, R. A. and Patterson, M. A., 292
Battacharya, I. C., *see* Bhagat, B., 434
Berger, A., *see* Nishie, K., 387
Bernstein, A., *see* DiCarlo, F. J., 254
Beta receptor blocking agents, effects on lipid-facilitated calcium transfer, 479
Bevan, J. A., *see* Suwandi, I. S., 1
Bhagat, B., Bhattacharya, I. C. and Dhalla, N. S., 434
Bhagat, B. and Gilliam, J., Jr., 191
Bioassay, computer program, 573
Bioelectric potentials, effects of γ-hydroxybutyrate, 128
Blood pressure
  effects of ganglionic and parasympathetic block, 285
  effects on functional refractory period of atrioventricular system, 505
Bolme, P., *see* Ngai, S. H., 495
Bondareff, W. and Gordon, B., 42
Borys, H. K., *see* Rech, R. H., 412
Brain
  calcium concentration and effects of ouabain, 321
  effects of reserpine on behavior and concentrations of serotonin and norepinephrine, 401
  physiologic disposition of H^3-histamine, 8
  regional studies of catecholamines, 30
  sensitivities to catecholamine-depleting actions of reserpine and tetrabenazine, 428
  synthesis rate and turnover time of serotonin in reserpine-treated rats, 177
Bretylium, interaction with acetylcholine at sympathetic nerve endings, 523
Briggs, A. H., *see* Shibata, S., 466
Brodie, B. B., *see* Hynie, S., 90
  see Tozer, T. N., 177
Brodie, D. A., *see* Hucker, H. B., 237
Buckley, J. P., *see* Severs, W. B., 530
  see Smookler, H. H., 485

Bundle branch block, in dogs, quinidine-induced tachycardia, 515

Cafruny, E. J., *see* Gussin, R. Z., 148
see Zedeck, M. S., 550
Calcium
concentration and effects of ouabain in brain slices, 321
ion, significance in morphine analgesia, 134
ion uptake, effects of cardiac glycosides, 114
transfer, effects of *beta* receptor blocking agents, 479
Campos, H. A., Stitzel, R. E. and Shideman, F. E., 448
Cantwell, N. H. R., *see* Hucker, H. B., 237
Cardiac cells, tissue culture, effects of drugs, 203
Cardiac rhythm, interaction of pronethalol and ouabain, 211
Cardiovascular dynamics, effects of anesthesia on central regulation, 495
Cardiovascular system, effects of endrin, 225
Catecholamines
alterations in behavior and brain levels in α-methyltyrosine-treated rats, 412
comparison with effects of hemorrhage on myocardial performance, 455
depleting actions of reserpine and tetrabenazine in brain, 428
effects on lipolysis and glycogenolysis, 569
regional studies in rat brain, 30
sites of depletion of reserpine in heart, 448
synthesis during stress, 440
Chemotherapy, of mycobacterial adjuvant periarthritis, 373
Chenoweth, M. B., *see* McCarty, L. P., 367
Choi, S. J., *see* Lee, K. S., 114
Cholinergic responses, influence of ouabain in sinoatrial node, 104
Cl-624, gastric antisecretory effects, 292
Clausen, J., 167
Coagulation, effect of phenobarbital administration during warfarin therapy, 250
Cocaine
effect on reserpine-induced depletion of cardiac catecholamines, 448
potentiation of cardiovascular effects of norepinephrine, 218
Computer program for bioassay, 573
Coronary artery, disease, metabolism of pentaerythritol tetranitrate, 254
Corticosterone, levels, effect of ethanol, 121
Coutinho, C. B., *see* DiCarlo, F. J., 254
Cox, S. V., *see* Hucker, H. B., 237
Craig, C. R., 337
Crew, M. C., *see* DiCarlo, F. J., 254
Cyanide toxicity, effect of oxygen, 381
Cyclophosphamide, diuretic effects, relationship to antidiuretic hormone, 550

Daniels, A. E., *see* Severs, W. B., 530
Denervation, effect on *alpha* receptors of nictitating membrane, 48
Dhalla, N. S., *see* Bhagat, B., 434
Diazepam, and other central nervous system depressants on spinal reflexes, 344
DiCarlo, F. J., Crew, M. C., Sklow, N. J., Coutinho, C. B., Nonkin, P., Simon, F. and Bernstein, A., 254
Dick, H. L. H., *see* McCawley, E. L., 515
Digoxin, effects on isolated cardiac cells, 203
1,1-Dimethyl-4-phenylpiperazinium, response of atria after reserpine, 434
5-(1,3-Dimethylbutyl)-5-ethyl barbituric acid, effect on sinoatrial nodal rate, 511
Diphenylhydantoin, pre- and postjunctional effects at soleus neuromuscular junction, 361
Dopamine-H^3, effects of drugs on disposition and metabolism, 30
Dower, G. E., *see* Mercer, E. N., 203
Dresel, P. E., *see* Kohli, J. D., 505
Dubnick, B., Morgan, D. F., Towne, C. A. and Phillips, G. E., 301
Towne, C. A., Morgan, D. R. and Phillips, G. E., 307

Eble, J. N. and Rudzik, A. D., 62
Ellis, F. W., 121
Emerson, T. E., *see* Hinshaw, L. B., 225
Endrin, effects on cardiovascular system, 225
Epinephrine, synthesis during stress, 440
Ethacrynic acid, renal sites of action, 148
Ethanol, effect on plasma corticosterone levels, 121
Ethylenediaminetetraacetate, renal excretion, 142

Fabry, E., *see* Graeme, M. L., 373
Finney, D. J., *see* McArthur, J. W., 573
Fiorica, V., *see* Hinshaw, L. B., 225
Fischer, J. E., Weise, V. K. and Kopin, I. J., 523
Fleming, W. W., *see* Hudgins, P. M., 70
Flurothyl, convulsions, time course of sensitivity after cortical ablations, 396
Forland, M., Pullman, T. N., Lavender, A. N. and Aho, I., 142
Fortney, S. R., 562
Functional refractory period, atrioventricular conduction, effects of anesthetics and blood pressure, 505

Gamble, W. J., *see* Monroe, R. G., 455
Ganglion
block, effects on responses to increased intracranial pressure, 285
-blocking agents, antagonism of lobeline at afferent nerve endings, 1
stimulation by McN-A-343, 266, 276
Gibbon, S. L., *see* Way, J. L., 381
Gilliam, J., Jr., *see* Bhagat, B., 191

Glowinski, J., Axelrod, J. and Iverson, L. L., 30
see Snyder, S. H., 8
Glucose
arterial, effect of hydrazine, 562
metabolism, effect of iproniazid phosphate, 97
Glucuronide, identification as major metabolite in fluorometric assay of quindonium bromide, 301
Glycogen, liver, effect of hydrazine, 562
Glycogenolysis, effects of theophylline and catecholamines, 569
Glycosides, cardiac, effects on calcium ion uptake of cardiac sarcoplasmic reticulum, 114
Goldblatt, A., *see* Monroe, R. G., 455
Gordon, B., *see* Bondareff, W., 42
Gordon, R., Spector, S., Sjoerdsma, A. and Udenfriend, S., 440
Grabarits, F. and Harvey, J. A., 401
Graeme, M. L., Fabry, E. and Sigg, E. B., 373
Gussin, R. Z. and Cafruny, E. J., 148

Hanano, M., *see* Nelson, E., 159
Hano, K., *see* Kakunaga, T., 134
Harvey, J. A., *see* Grabarits, F., 401
Heart
effect of iproniazid phosphate on glucose metabolism, 97
sites of catecholamine-depleting action of reserpine, 448
Hemorrhage, effects on myocardial performance, 455
Hilton, J. G. and Steinberg, M., 285
Hinshaw, L. B., Solomon, L. A., Reins, D. A., Fiorica, V. and Emerson, T. E., 225
Histamine
enzymatic isotopic assay in tissues, 544
-H^3, physiologic disposition in rat brain, 8
-methyl transferase, assay of tissue histamine levels, 544
role of adrenergic system in death of guinea pigs, 538
Hong, E., 259
Howe, B. B., *see* Winbury, M. M., 471
Hucker, H. B., Zacchei, A. G., Cox, S. V., Brodie, D. A. and Cantwell, N. H. R., 237
Hudgins, P. M. and Fleming, W. W., 70
Hydrazine, effect on carbohydrate metabolism, 562
γ-Hydroxybutyrate, effects, 128
5-Hydroxyindoleacetic acid, level and disappearance rate as indicators of serotonin synthesis, 177
Hydroxytryptamine, effects on brain lesions and of reserpine on brain lesions, 401
5-Hydroxytryptophan, effects on spinal synaptic activity, 352
Hynie, S., Krishna, G. and Brodie, B. B., 90

Indomethacin
absorption, distribution and excretion, 237
metabolism in various species, 237
Innes, I. R., *see* Kohli, J. D., 505
see Tuttle, R. R., 211
Insecticide, chlorinated hydrocarbon, cardiovascular effects, 225
Interneurons, spinal cord, responses to acetylcholine, norepinephrine and serotonin, 420
Intracranial fluid, pressure, and effects of ganglionic and parasympathetic block, 285
Iproniazid, effect on glucose metabolism by rabbit heart, 97
Isomers
D, sensitivity, 81
L, sensitivity, 81
norepinephrine, effects on supersensitivities of nictitating membrane, 81

Nonkin, P., *see* DiCarlo, F. J., 254
Nor-nitrogen mustard, diuretic effects, 550
Norepinephrine
depletion by tyramine, 191
effects of isomers on supersensitivities of nictitating membrane, 81
effects of reserpine on behavior and brain concentration, 401
effects on spinal cord interneurons, 420
-H^3, effects of drugs on disposition and metabolism, 30
localization in sympathetic nerves of rat pineal, 42
potentiation of cardiovascular effects by cocaine, 218
retention after reserpine, 434
role in central effects of angiotensin II, 485
synthesis during stress, 440
Normetanephrine, distribution and analysis in diverse biologic material, 15

Ouabain
effects on ion concentration and respiration of brain slices, 321
-induced cardiac arrhythmias, effects of pronethalol, 211
influence on cholinergic responses in sinoatrial node, 104
interaction with inotropic effects of quindonium, 471
interaction with pronethalol on cardiac rhythm and automaticity, 211
Overweg, N. I. A., 314
Oxygen, effect on cyanide intoxication, prophylactic protection, 381
Oxytocic agents, pharmacology of 2-(1-piperazinyl)quinoline, 259
Oxytocin, inhibition of toad bladder and rat uterus responses, 314

Parasympathetic block, effects on intracranial fluid and blood pressure, 285
Pardo, E. G., *see* Hong, E., 259
Patil, P. N., *see* Seidehamel, R. J., 81
Patterson, M. A., *see* Bass, P., 292
Pharmacokinetics, of salicylate elimination, 159
Pentaerythritol tetranitrate, metabolism in coronary artery disease patients, 254
Pentobarbital, effect on sinoatrial nodal rate, 511
Peters, E. L., *see* Lish, P. M., 538
Phenobarbital, effect on control of coagulation during warfarin therapy, 250
Periarthritis, mycobacterial adjuvant, and modification by antiinflammatory agents, 373
Phillips, G. E., *see* Dubnick, B., 301, 307
Pineal, localization of norepinephrine in sympathetic nerves, 42
2-(1-Piperazinyl)quinoline, pharmacology, 259
Plasma, corticosterone levels, effect of ethanol, 121
Polybutylene glycol adducts, neuromuscular blocking actions, 367
Pressor response, blockade by amphetamine in reserpine-treated dog, 62

Procaine amide, effects on isolated cardiac cells, 203
Pronethalol
  action on inotropic effects of quindonium and ouabain, 471
  antiarrhythmic effects in ouabain-treated dog, 211
  effects on calcium transfer, 479
  interaction with ouabain on cardiac rhythm and automaticity, 211
Propranolol, effects on calcium transfer, 479
Protamine, effects on respiration of brain slices, 321
Proteins, serum, binding of sulfonamides, 167
Pullman, T. N., *see* Forland, M., 142
Purdon, R. A., *see* Bass, P., 292
Pyruvate, effect of hydrazine, 562

Quindonium
  bromide, fluorometric assay and identification of glucuronide as major metabolite, 301
  distribution in normal and stressed rats, 307
  interaction with inotropic effects of ouabain, 471
  metabolic interactions involving biogenic amines and glycogen, 307
  metabolism, 301
Quinidine
  effects on isolated cardiac cells, 203
  induction of tachycardia, 515

Raines, A. and Standaert, F. G., 361
Rech, R. H., Borys, H. K. and Moore, K. E., 412
Reeves, M. M., *see* McCawley, E. L., 515
Reins, D. A., *see* Hinshaw, L. B., 225
Reserpine
  depletion of catecholamines in brain, 428
  effect on behavior and brain concentrations of serotonin and norepinephrine, 401
  effect on synthesis and turnover rates of serotonin in brain, 177
  pretreatment, supersensitivity in aortic strips, 70
  sites of catecholamine-depleting action in heart, 448
  -treated dog, blockade of pressor response to tyramine by amphetamine, 62
  treatment, norepinephrine retention and atrial responses to tyramine and 1,1-dimethyl-4-piperazinium, 434
Reticulum, cardiac sarcoplasmic, effects of cardiac glycosides on calcium ion uptake, 114
Robbins, S. I., *see* Lish, P. M., 538
Robinson, D. S. and MacDonald, M. G., 250
Rudzik, A. D., *see* Eble, J. N., 62

Salicylate, elimination, comparative phamacokinetics, 159

VOLUME 153 JULY–SEPTEMBER 1966

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*
I. M. WEINER: *Renal Pharmacology*
K. P. DUBOIS: *Toxicology*

CONTENTS OF VOLUME 153

No. 1, JULY 1966

Antagonism of Lobeline by Ganglion-Blocking Agents at Afferent Nerve Endings. I. S. SUWANDI AND J. A. BEVAN 1

The Physiologic Disposition of H^3-Histamine in the Rat Brain. SOLOMON H. SYNDER, JACQUES GLOWINSKI AND JULIUS AXELROD 8

Distribution of Metanephrine and Normetanephrine in Various Animals and Their Analysis in Diverse Biologic Material. A. H. ANTON AND D. F. SAYRE 15

Regional Studies of Catecholamines in the Rat Brain. IV. Effects of Drugs on the Disposition and Metabolism of H^3-Norepinephrine and H^3-Dopamine. JACQUES GLOWINSKI, JULIUS AXELROD AND LESLIE L. IVERSON 30

Submicroscopic Localization of Norepinephrine in Sympathetic Nerves of Rat Pineal. WILLIAM BONDAREFF AND BRUCE GORDON 42

Effect of Sympathetic Denervation on the *Alpha* Receptors of the Cat Nictitating Membrane. D. R. VARMA 48

The Blockade of the Pressor Response to Tyramine by Amphetamine in the Reserpine-Treated Dog. JOHN NELSON EBLE AND ALLAN D. RUDZIK 62

A Relatively Nonspecific Supersensitivity in Aortic Strips Resulting from Pretreatment with Reserpine. PATRICIA M. HUDGINS AND WILLIAM W. FLEMING 70

The Effects of Norepinephrine Isomers on Various Supersensitivities of the Cat Nictitating Membrane. R. J. SEIDEHAMEL, P. N. PATIL, A. TYE AND J. B. LAPIDUS 81

Theophylline as a Tool in Studies of the Role of Cyclic Adenosine 3′,5′-Monophosphate in Hormone-Induced Lipolysis. S. HYNIE, G. KRISHNA AND B. B. BRODIE 90

Effect of Iproniazid Phosphate on the Intermediary Metabolism of Glucose by the Rabbit Heart. KENNETH F. TEMPERO AND GERALD A. KIEN 97

The Influence of Ouabain on Cholinergic Responses in the Sinoatrial Node. NOBORU TODA AND THEODORE C. WEST 104

Effects of the Cardiac Glycosides on the Ca^{++} Uptake of Cardiac Sarcoplasmic Reticulum. KWANG SOO LEE AND SIN JYOUNG CHOI 114

Effect of Ethanol on Plasma Corticosterone Levels. FRED W. ELLIS 121

Pharmacologic Definition of Neuronal Components Generating Spontaneous and Evoked Potentials in the Tectum of the Chick: Effect of γ-Hydroxybutyrate. NORMAN W. SCHOLES 128

Pharmacologic Studies on Analgesics—VII. Significance of the Calcium Ion in Morphine Analgesia. TAKEO KAKUNAGA, HIROSHI KANETO AND KOTOBUKI HANO 134

The Renal Excretion of Ethylenediaminetetraacetate in the Dog. MARVIN FORLAND, THEODORE N. PULLMAN, A. R. LAVENDER AND IMPI AHO 142

Renal Sites of Action of Ethacrynic Acid. ROBERT Z. GUSSIN AND EDWARD J. CAFRUNY 148

Comparative Pharmacokinetics of Salicylate Elimination in Man and Rats. EINO NELSON, MANABU HANANO AND GERHARD LEVY 159

Binding of Sulfonamides to Serum Proteins: Physicochemical and Immunochemical Studies. JØRGEN CLAUSEN 167

No. 2, AUGUST 1966

Application of Steady State Kinetics to the Synthesis Rate and Turnover Time of Serotonin in the Brain of Normal and Reserpine-Treated Rats. THOMAS N. TOZER, NORTON H. NEFF AND BERNARD B. BRODIE 177

The Metabolism of Tyramine in Rabbits. L. LEMBERGER, A. KLUTCH AND R. KUNTZMAN 183

Factors Influencing the Depletion of Cardiac Norepinephrine by Tyramine. B. BHAGAT AND J. GILLIAM, JR. 191

Chronotropic Action of Amino Acids. LIBI SHERF AND THOMAS N. JAMES 197

Normal and Arrhythmic Beating in Isolated Cultured Heart Cells and the Effects of

Digoxin, Quinidine and Procaine Amide. EDWARD N. MERCER AND GORDON E. DOWER 203
Interaction of Pronethalol and Ouabain on Cardiac Rhythm and Automaticity. RONALD R. TUTTLE AND I. R. INNES 211
Potentiation of the Cardiac and Pressor Responses to Electrical Stimulation of the Cardiac Sympathetic Nerves by Cocaine in Open-Chest Dogs. JOANNE I. MOORE .. 218
Effects of the Insecticide Endrin on the Cardiovascular System of the Dog. LERNER B. HINSHAW, LURA A. SOLOMON, DALE A. REINS, VINCENT FIORICA AND THOMAS E. EMERSON 225
Studies on the Absorption, Distribution and Excretion of Indomethacin in Various Species. H. B. HUCKER, A. G. ZACCHEI, S. V. COX, D. A. BRODIE AND N. H. R. CANTWELL 237
The Effect of Phenobarbital Administration on the Control of Coagulation Achieved during Warfarin Therapy in Man. DONALD S. ROBINSON AND MURDO G. MACDONALD 250
Metabolism of Pentaerythritol Tetranitrate by Patients with Coronary Artery Disease. FREDERICK J. DICARLO, MALCOLM C. CREW, NANCY J. SKLOW, CLAUDE B. COUTINHO, PAUL NONKIN, FRANKLIN SIMON AND ARTHUR BERNSTEIN 254
On the Pharmacology of 2-(1-Piperazinyl)Quinoline. E. HONG AND E. G. PARDO 259
Observations on the Selectivity of Stimulant Action of 4-(*m*-Chlorophenylcarbamoyloxy)-2-Butynyltrimethylammonium Chloride on Sympathetic Ganglia. JAMES C. SMITH 266
Pharmacologic Interactions with 4-(*m*-Chlorophenylcarbamoyloxy)-2-Butynyltrimethylammonium Chloride, a Sympathetic Ganglion Stimulant. JAMES C. SMITH 276
Effects of Ganglion- and Parasympathetic-Blocking Drugs upon the Pressor Response Elicited by Elevation of the Intracranial Fluid Pressure. JAMES G. HILTON AND MARSHALL STEINBERG 285
Gastric Antisecretory and Other Pharmacologic Studies of 3-Methylamino-2,1-Benzisothiazole. PAUL BASS, R. A. PURDON AND M. A. PATTERSON 292
Fluorometric Assay of Quindonium Bromide and Identification of a Glucuronide as the Major Metabolite. BERNARD DUBNICK, D. FAY MORGAN, CAROL A. TOWNE AND GEORGE E. PHILLIPS 301
Quindonium and Its Glucuronide: Tissue Distribution in Normal and Stressed Mice and Metabolic Interactions Involving Biogenic Amines and Glycogen. BERNARD DUBNICK, CAROL A. TOWNE, D. FAY MORGAN AND GEORGE E. PHILLIPS 307
Inhibition of Toad Bladder and Rat Uterus Responses to Oxytocin and Other Agents by Toad Bladder Extracts. NORBERT I. A. OVERWEG 314
Ouabain-Induced Changes in Sodium and Potassium Content and Respiration of Cerebral Cortex Slices: Dependence on Medium Calcium Concentration and Effects of Protamine. P. D. SWANSON AND K. ULLIS 321
Renal Effects of Exogenous Adenosine Derivatives in the Chicken. BOHDAN R. NECHAY 329
Anticonvulsant Activity of Steroids: Separability of Anticonvulsant from Hormonal Effects. CHARLES R. CRAIG 337
Effect of Diazepam and Other Central Nervous System Depressants on Spinal Reflexes in Cats: A Study of Site of Action. S. H. NGAI, DOROTHY T. C. TSENG AND S. C. WANG 344
The Effects of 5-Hydroxytryptophan and *l*-Tryptophan on Spinal Synaptic Activity. EDMUND G. ANDERSON AND TAKESHI SHIBUYA 352
Pre- and Postjunctional Effects of Diphenylhydantoin at the Cat Soleus Neuromuscular Junction. ARTHUR RAINES AND FRANK G. STANDAERT 361
Curare-Like Activity of Polybutylene Adducts. LESLIE P. MCCARTY AND MAYNARD B. CHENOWETH 367
Mycobacterial Adjuvant Periarthritis in Rodents and Its Modification by Antiinflammatory Agents. M. L. GRAEME, E. FABRY AND E. B. SIGG 373
Effect of Oxygen on Cyanide Intoxication. I. Prophylactic Protection. JAMES L. WAY, STANLEY L. GIBBON AND MAUREEN SHEEHY 381

No. 3, September 1966

Anticonvulsant and Convulsant Effects of Chemically Related Thiosemicarbazide, Thiourea and Urea Derivatives. Keica Nishie, Marlys Weary and Arthur Berger 387
Time Course of Altered Sensitivity to Flurothyl Following Cortical Ablations in Rats. Martin W. Adler 396
The Effects of Reserpine on Behavior and on Brain Concentrations of Serotonin and Norepinephrine in Control Rats and Rats with Hypothalamic Lesions. Frank Grabarits and John A. Harvey 401
Alterations in Behavior and Brain Catecholamine Levels in Rats Treated with α-Methyltyrosine. R. H. Rech, H. K. Borys and K. E. Moore 412
Responses of Spinal Cord Interneurons to Acetylcholine, Norepinephrine and Serotonin Administered by Microelectrophoresis. F. F. Weight and G. C. Salmoiraghi 420
Sensitivities of the Brains of Infant and Adult Rats to the Catecholamine-Depleting Actions of Reserpine and Tetrabenazine. A. S. Kulkarni and F. E. Shideman 428
Retention of Exogenous Norepinephrine and Recovery of the Responses to Tyramine and 1,1-Dimethyl-4-Phenylpiperazinium Iodide after Reserpine. B. Bhagat, I. C. Bhattacharya and N. S. Dhalla 434
Increased Synthesis of Norepinephrine and Epinephrine in the Intact Rat during Exercise and Exposure to Cold. Robert Gordon, Sydney Spector, Albert Sjoerdsma and Sidney Udenfriend 440
Subcellular Sites of the Catecholamine-Depleting Action of Reserpine in the Heart. H. A. Campos, R. E. Stitzel and F. E. Shideman 448
A Comparison of the Effect of Hemorrhage and Infused Catecholamines on Ventricular Performance, Coronary Flow and Myocardial Oxygen Consumption. R. Grier Monroe, W. J. Gamble, C. G. La Farge, S. R. Aguilar and A. Goldblatt 455
The Relationships between Electrical and Mechanical Events in Rabbit Aortic Strips. S. Shibata and A. H. Briggs 466
Combined Positive Inotropic Interaction of Quindonium and Ouabain. Martin M. Winbury and Burton B. Howe 471
The Effect of Pronethalol and Propranolol on Lipid-Facilitated Transport of Calcium Ions. Winifred G. Nayler 479
Centrally Mediated Cardiovascular Effects of Angiotensin II. Harold H. Smookler, Walter B. Severs, William J. Kinnard and Joseph P. Buckley 485
Effects of Anesthetics on Circulatory Regulatory Mechanisms in the Dog. S. H. Ngai and Per Bolme 495
Influence of Anesthetics and of Arterial Blood Pressure on the Functional Refractory Period of Atrioventricular Conduction. J. D. Kohli, Ronald R. Tuttle, Peter E. Dresel and I. R. Innes 505
Actions of 5-(1,3-Dimethylbutyl)-5-Ethyl Barbituric Acid, Pentobarbital, Amobarbital and Thiopental on the Sino-Atrial Nodal Activity of the Isolated Heart. Hansjürg Schaer 511
Quinidine-Induced Tachycardia in Dogs with Bundle Branch Block. Elton L. McCawley, H. Lenox H. Dick, Melvin M. Reeves and Andrew N. Urbanc 515
Interactions of Bretylium and Acetylcholine at Sympathetic Nerve Endings. Josef E. Fischer, Virginia K. Weise and Irwin J. Kopin 523
Interrelationship Between Angiotensin II and the Sympathetic Nervous System. Walter B. Severs, Anne E. Daniels, Harold H. Smookler, William J. Kinnard and Joseph P. Buckley 530
Specificity of Antihistamine Drugs and Involvement of the Adrenergic System in Histamine Deaths in the Guinea Pig. P. M. Lish, S. I. Robbins and E. L. Peters 538
A Sensitive and Specific Enzymatic Isotopic Assay for Tissue Histamine. Solomon H. Snyder, Ross J. Baldessarini and Julius Axelrod 544
The Diuretic Effects of Cyclophosphamide and Nor-Nitrogen Mustard: Relationship to Antidiuretic Hormone. Morris S. Zedeck, L. B. Mellett and Edward J. Cafruny 550
Effect of Hydrazine on Liver Glycogen, Arterial Glucose, Lactate, Pyruvate and Acid-Base Balance in the Anesthetized Dog. Sidney R. Fortney 562

Effects of Theophylline and Catecholamines on Lipolysis and Glycogenolysis *in Vivo*. L. TRINER AND G. G. NAHAS 569
A Flexible Computer Program for the Composite Analysis of Symmetrical and Asymmetrical Biologic Assays of Parallel-Line Type. J. W. MCARTHUR, H. ULFELDER AND D. J. FINNEY 573
Index, Volume 153, July–September 1966 581

INDEX

Volume 154, October–December 1966

Acetylcholine, release of, inhibition by tetrodotoxin, 456
Actomyosin, lack of response to cardiac glycosides, 558
Adrenergic blocking agents, and inhibition of intestinal relaxation produced by sympathomimetic amines, 463
Adrenergic nerve endings, catecholamine storage vesicles in, 185
Adrenergic receptors, in myocardium, demonstrated by changes of functional refractory period, 255
  intestinal, 463
Adrenergic responses, of Renshaw cells, 391
Adrenocortical steroids, effects on nicotinamide deficiency disorders and 6-aminonicotinamide toxicity, 624
Age, as factor in group toxicity of amphetamine, 346
Aggregation, as factor in group toxicity of amphetamine, 346
Ahmad, P. M., *see* Hucker, H. B., 176
Aiello, E. and Guideri, G., 517
Aldrin, as antagonist of organophosphate anti-ChE agents, 613
Alkyl fluorophosphates, antagonism of toxicity by aldrin, 613
Alpha adrenergic receptors, demonstrated by functional refractory-period changes, 255
Altland, P. D., *see* Maling, H. M., 35
ω-Amino acids, as antagonists to pentylenetetrazol, 646
m-Amino benzoic acid ethylester, effects on neuromuscular transmission in frogs, 449
6-Aminonicotinamide, toxicity of, effects of adrenocortical steroids, 624
Amphetamine, factors influencing group toxicity in mice, 346
Analgetic effects, of CI-572, 161
Anesthesia, effects of magnesium sulfate in humans, 652
Anesthetic agents, effect on presynaptic inhibition, 119
  volatile, metabolism of, 364
Angiotensin, effect of corticosteroids on cardiovascular responses to, 83
  ganglion-stimulating action of, 418
Anoxia, effects on electrolyte content of isolated rat ventricles, 281
Antihistamines, effect on local temperature changes associated with inflammation, 103
Antiinflammatory agents, effect on local temperature changes associated with inflammation, 103
Antitussive activity, of CI-572, 161
Aralkylamines, effects on metabolism of aromatic monoamines, 64
Aspirin, effect on local temperature changes associated with inflammation, 103
ATPase, Na-K-activated, effect of ouabain, 581
Atria, responses to ganglion-stimulating agents, 264
Autonomic pharmacology, action of tetrodotoxin, 456
  drug-evoked potentials and transmission, 410
Aviado, D. M., *see* Folle, L. E., 92
Avoidance conditioning, in mice, effects of mecamylamine, 350
Axelrod, J., *see* Iversen, L. L., 56

Beecher, H. K., *see* Smith, G. M., 324
Ben-Ishay, D., Grupp, I. L. and Grupp, G., 524
Besse, J. C. and Bass, A. D., 224
Beta adrenergic receptors, demonstrated by functional refractory-period changes, 255
Bhagat, B., 264
Bigler, F., *see* Pletscher, A., 64
Biotransformation, of digitoxin, 575
Bishydroxycoumarin, effect of phenyramidol on metabolism of, 660
Blatt, A. H., *see* Hook, J. B., 667
Bloom, F. E., *see* Van Orden, L. S., III, 185
Borison, H. L., *see* Pentiah, P., 110
Boyd, E. S., Meritt, D. A. and Gardner, L. C., 398
Bradycardia, induced by veratrum alkaloids, 546
Bradykinin, ganglion-stimulating action of, 418
Brandfonbrener, M., Kronholm, J. and Jones, H. R., 250
Bristow, J. D., *see* Hamilton, W. K., 566
Brodie, B. B., Costa, E., Dlabac, A., Neff, N. H. and Smookler, H. H., 493
  see Maling, H. M., 35
Brody, M. J., *see* Hook, J. B., 667
Broom, A. H., *see* Govier, W. C., 255
Bruderer, H., *see* Pletscher, A., 64
Buhs, R. P., Polin, D., Beattie, J. O., Beck, J. L., Smith, J. L., Speth, O. C. and Trenner, N. R., 357

Burkard, W. P., *see* Pletscher, A., 64
BW 58-271, effects on central nervous system of cats and mice, 152
electroencephalogram suppression by, 152

Calcium, effects on toxicity of ouabain, 239
Calcium^{45}, effect of pH on movement in skeletal muscle, 605
effect of potassium on movement in skeletal muscle, 595
Cardiac glycosides, effect on cerebrospinal fluid production, 581
lack of effects on purified contractile protein systems, 558
metabolism of, 575
Cardiopulmonary effects, of quinidine and procainamide, 92
Cardiovascular responses, to angiotensin and norepinephrine, effects of corticosteroids on, 83
to diazepam, in cats, 271
Castellot, J. J., *see* Shear, L., 289
Catechloamines, as antagonists of pentylenetetrazol, 646
effects on ganglionic transmission, 1
histochemical and functional relationships in adrenergic nerve endings, 185
interactions with ganglionic stimulating agents in sympathetic ganglia, 200
metabolites of, effects on uptake of norepinephrine, 56
potentiation by hydrocortisone, 224
release by cocaine and indirectly-acting adrenergic agents, 481
synthesis and turnover rates in tissues, 493
Central depressants, effects of magnesium sulfate in humans, 652
Central nervous system, depressant effects of BW 58-271, 152
effect of convulsant drugs on cuneate nucleus, 398
Central vagal stimulation, mechanism of early and delayed pressor response, 524
Cerebral cortex, effect of morphine on phospholipid metabolism, 370
Cerebrospinal fluid, effect of ouabain on production of, 581
Chai, C. Y. and Wang, S. C., 271, 546
Chernov, H. I., Furness, P., Partyka, D. and Plummer, A. J., 346
p-Chlorophenylalanine, as depletor of brain serotonin, 499
Cholinesterase inhibitors, antagonism of toxic effects by aldrin, 613
Choroid plexus, *in vitro* uptake of morphine by, 586
CI-572, evaluation as analgetic and antitussive agent, 161
pharmacology and toxicology, 161
Ciliary activity, relations to 5-hydroxytryptamine and nerve stimulation, 517
Cocaine, tachyphylaxis and effects on responses to indirectly-acting adrenergic agents, 481
Cold storage, and inhibition of intestinal relaxation produced by sympathomimetic amines, 463
Confinement, as factor in group toxicity of amphetamine, 346
Conney, A. H., Jacobson, M., Levin, W., Schneidman, K. and Kuntzman, R., 310
Convulsant agents, effect on transmission through cuneate nucleus, 398
Coon, J. M., *see* Triolo, A. J., 613
Corticosteroids, effect on cardiovascular responses to angiotensin and norepinephrine, 83
Costa, E., *see* Brodie, B. B., 493
Cuneate nucleus, effect of convulsant drugs on transmission, 398
Curran, P. F., *see* Morain, W. D., 298
H^3-Cyclazocine, disposition and metabolism in dogs, 632
Cyclopropane, effects on ventricular pressure-volume relations, 566

Da Prada, M., *see* Pletscher, A., 64
Decamethonium, effects on twitch and tonic neuromuscular systems of cat, 303
De Groat, W. C. and Volle, R. L., 1, 200
Dehydration, effects on absorption of peritoneal fluid, 289
Denervation, of nictitating membrane, and presence of tone, 14
Dennison, B. L., *see* Schaeppi, U., 216
Depressant drugs, effect on presynaptic inhibition, 119
Diazepam, cardiovascular effects in cats, 271
Dibenamine, influence of tyramine on receptor interaction with, 472
Digitalis glycosides, metabolism of, 575
Digitoxin, biotransformation of, in dogs, 575
Dimethyl tubocurarine, effects on twitch and tonic neuromuscular systems of cat, 303
Dimethylsulfoxide, absorption, distribution and metabolism in rodents, 176
effect on properties of frog skin, 298
Diphenidol, pharmacology of, 339
Diuretic agents, effects on renal hemodynamics, 667
Dlabac, A., *see* Brodie, B. B., 493
Dodd, M., *see* Schaeppi, U., 216

Eakins, K. E., *see* Katz, R. L., 303
Egbert, L. D., *see* Smith, G. M., 324
Electroencephalogram, suppression by BW 58-271, 152
Electrolyte content, of isolated rat ventricles, effects of halothane and anoxia, 281

Emesis, antiemetic action of diphenidol, 339
from intracerebroventricular administration of hydergine or mechlorethamine, 333
Esplin, D. W., *see* Miyahara, J. T., 119
Ethacrynic acid, effect on renal hemodynamics, 667
Ethopabate, metabolism in chickens, 357
N-Ethylmaleimide, effect on sympathetic ganglion, 410
Exercise, physiologic role of sympathetic nervous system in, 35

FD&C blue no. 2, metabolism and excretion in rats, 384
Fellows, E. J., *see* Leonard, C. A., 339
Fischer, J. E., *see* Iversen, L. L., 56

Maengwyn-Davies, G. D. and Koppanyi, T., 481
Maeno, T., 449
Magnesium sulfate, anesthetic effects in humans, 652
Maling, H. M., Stern, D. N., Altland, P. D., Highman, B. and Brodie, B. B., 35
Manwaring, J. L., *see* Lefer, A. M., 83
Markowitz, R. A., *see* Smith, G. M., 324
Mecamylamine, effects on avoidance conditioning and maze learning of mice, 350
Mechlorethamine, emesis from intraventricular administration of, 333
Mercaptomerin, effects on absorption of peritoneal fluid, 289
Meritt, D. A., *see* Boyd, E. S., 398
Metabolism, of aromatic monoamines, effects of aralkylamines, 64
of bishydroxycoumarin, effect of phenyramidol, 660
of cardiac glycosides, 575
of digitalis glycosides, 575
of digitoxin in dogs, 575
of dimethylsulfoxide in rodents, 176
of ethopabate in chickens, 357
of FD&C blue no. 2, 384
of H^3-cyclazocine in dogs, 632
of norepinephrine in myocardium, effects of thyroxin, 531
of phospholipids, effects of morphine and nalorphine, 370
of volatile anesthetics, 364
α-Methyl-*m*-tyrosine, as depleting agent for norepinephrine in storage vesicles, 185
Methylguanidine, inotropic effects in dog heart, 73
Meyers, F. H., *see* Katzung, B. G., 575
Microsomal enzyme induction, by volatile anesthetics, 364
influence on central depression from steroids, 310
Miller, E. A., *see* Hucker, H. B., 176
Miller, J. W., *see* Lewis, J. E., 46
Miyahara, J. T., Esplin, D. W. and Zablocka, B., 119
Mo, B. P.-N. and Way, E. L., 142
Monoamines, aromatic, effect of aralkylamines on metabolism, 64
Morain, W. D., Replogle, C. A. and Curran, P. F., 298
Mori, Y., *see* Ogura, Y., 456
Morphine, effect on brain slice phospholipid metabolism, 370
effect on pain from tourniquet in man, 324
interaction with salicylate on respiration, 110
uptake by choroid plexus *in vitro*, 586
Mosal, N. C., *see* Govier, W. C., 255
Mosimann, W., *see* Krayer, O., 73
Mosteller, F., *see* Smith, G. M., 324
Motor function, blockade by orphenadrine, 128
Mulé, S. J., 370
and Gorodetzky, C. W., 632
Muscarinic receptors, ganglionic transmission through, 426
Muscle contraction, nicotine-induced, effect of pH on, 605
nicotine-induced, effect of potassium on, 595
Myocardium, adrenergic receptors in, demonstrated by changes in functional refractory period, 255
norepinephrine metabolism in, effects of thyroxin, 531
Myosin, lack of response to cardiac glycosides, 558

Nalorphine, effect on brain slice phospholipid metabolism, 370
Narcotic antagonists, as inhibitors of writhing in mice, 319
Nastuk, W. L. and Poppers, P. J., 441
Neff, N. H., *see* Brodie, B. B., 493
Nerve stimulation, of ciliary activity, 517
Neuromuscular blocking drugs, effects on twitch and tonic neuromuscular systems in cats, 303
Neuromuscular responses, in cats, effects of neuromuscular blocking agents, 303
Neuromuscular transmission, effects of a thiamine analog, 441
in frogs, effects of *m*-amino benzoic acid ethylester (MS-222), 449
Neuropharmacology, effect of morphine on respiration, 110
of diphenidol, 339
Nicotinamide deficiency disorders, effects of adrenocortical steroids, 624
Nicotine, contracture and Ca^{45} movement in skeletal muscle induced by, 595, 605
nonganglionic parasympathomimetic effects in isolated iris, 216
Nictitating membrane, tone and supersensitivity of, 14

Norepinephrine, effect of corticosteroids on cardiovascular responses to, 83
effect on Renshaw cells, 391
identification as humoral agent in pressor response to central vagal stimulation, 524
metabolism in myocardium, effects of thyroxin, 531
storage vesicles in nerve, histochemical and functional relationships of, 185
uptake of, effects of metabolites of norepinephrine, 56
Norton, S. and Jewett, R. E., 152

Ogura, Y., Mori, Y. and Watanabe, Y., 456
Oliverio, A., 350
Oppelt, W. W. and Palmer, R. F., 581
Orphenadrine, blockade of reticular and spinal facilitation of motor function, 128
Ouabain, cardiotoxicity of, modified by sodium and calcium, 239
effect on cerebrospinal fluid production, 581
lack of effects on purified contractile protein systems, 558

Pain, response to morphine in man, 324
Palmer, R. F., *see* Oppelt, W. W., 581
Papp, R. H., Hawkins, H. B., Share, N. N. and Wang, S. C., 333

Parasympathomimetic responses, of isolated cat iris to nicotine, 216
Partyka, D., *see* Chernov, H. I., 346
Pearl, J. and Harris, L. S., 319
Pentiah, P., Reilly, F. and Borison, H. L., 110
Pentylenetetrazol, convulsions antagonized by ω-amino acids and biogenic amines, 646
Peritoneal fluid absorption, effects of dehydration, mercaptomerin and vasopressin, 289
Permeability of frog skin, effects of dimethylsulfoxide, 298
Phenoxybenzamine-H^3, as label for receptors, 46
Phenylpyrrolidines, pharmacology and toxicology of *m*-(1-methyl-3-propyl-3-pyrrolidinyl)-phenol (CI-572), 161
Phenyramidol, effect on metabolism of bishydroxycoumarin, 660
Phospholipids, effect of morphine and nalorphine on brain slice metabolism, 370
Pircio, A. W. and Groskinsky, E. J., 103
Pletscher, A., Da Prada, M., Burkard, W. P., Bartholini, G., Steiner, F. A., Bruderer, H. and Bigler, F., 64
Plummer, A. J., *see* Chernov, H. I., 346
Polin, D., *see* Buhs, R. P., 357
Polypeptides, ganglion-stimulating action of, 418
Poole, L., *see* Shear L., 289
Poppers, P. J., *see* Nastuk, W. L., 441
Potassium, effect of serum concentration on quinidine toxicity, 250
effect on nicotine-induced contracture and Ca^{45} movements in skeletal muscle, 595
Pressor response, to central vagal stimulation, mechanism of early and delayed effects, 524
Presynaptic inhibition, effects of depressant drugs, 119
Procainamide, cardiopulmonary effects of, 92
Progesterone, as central depressant, influence of microsomal enzyme induction, 310
Protoveratrine A, inducing sinus bradycardia, 546
Pyrrolopyrimidine, as a central nervous system depressant, 152

Quinidine, cardiopulmonary effects of, 92
toxicity of, effect of potassium concentration, 250

Radiometric measurement, of local temperature changes induced by inflammation, 103
Rapaport, E., *see* Hamilton, W. K., 566
Receptors, epinephrine, influence of tyramine on interaction with Dibenamine, 472
labeling with phenoxybenzamine-H^3, 46
Refractory period, functional, changes in, demonstrating myocardial adrenergic receptors, 255
Reilly, F., *see* Pentiah, P., 110
Renal hemodynamics, effects of saluretic-diuretic agents, 667
Renshaw cells, adrenergic responses, 391
Replogle, C. A., *see* Morain, W. D., 298
Respiration, interactions of morphine sulfate and sodium salicylate on, 110
Rice, A. J., Leeson, C. R. and Long, J. P., 539

Salicylate, interaction with morphine on respiration, 110
Salmoiraghi, G. C., *see* Weight, F. F., 391

VOLUME 154 OCTOBER–DECEMBER 1966

THE JOURNAL OF
Pharmacology
AND EXPERIMENTAL THERAPEUTICS

FOUNDED BY JOHN J. ABEL 1909

Official Publication of The American Society for Pharmacology and Experimental Therapeutics, Inc.

EDITOR
J. B. KAHN, JR.

EXECUTIVE OFFICER
ELLSWORTH B. COOK

ASSISTANT EDITOR
GEORGE T. OKITA

EDITORS FOR SPECIFIC FIELDS

U. TRENDELENBURG: *Autonomic Pharmacology*
BERNARD WEISS: *Behavioral Pharmacology*
HERBERT TABOR: *Biochemical Pharmacology*
HENRY H. SWAIN: *Cardiovascular Pharmacology*
ALBERT SJOERDSMA: *Clinical Pharmacology*
ALLAN H. CONNEY: *Drug Metabolism and Disposition*
WILLIAM R. MARTIN: *Neuropharmacology*
I. M. WEINER: *Renal Pharmacology*
K. P. DUBOIS: *Toxicology*

CONTENTS OF VOLUME 154

No. 1, October 1966

The Actions of the Catecholamines on Transmission in the Superior Cervical Ganglion of the Cat. William C. De Groat and Robert L. Volle 1

Presence of Tone in the Denervated and in the Decentralized Nictitating Membrane of the Spinal Cat and Its Influence on Determinations of Supersensitivity. S. Z. Langer 14

The Physiologic Role of the Sympathetic Nervous System in Exercise. H. M. Maling, D. N. Stern, P. D. Altland, B. Highman and B. B. Brodie 35

The Use of Tritiated Phenoxybenzamine for Investigating Receptors. Jon E. Lewis and Jack W. Miller 46

Enhancement of H^3-Norepinephrine Uptake in Rat Tissues by O-Methylated Metabolites of Catecholamines. Leslie L. Iversen, Joseph E. Fischer and Julius Axelrod 56

Aralkylamines with Different Effects on the Metabolism of Aromatic Monoamines. A. Pletscher, M. Da Prada, W. P. Burkard, G. Bartholini, F. A. Steiner, H. Bruderer and F. Bigler 64

Rate-Increasing Action of Methylguanidine upon the Isolated Mammalian Heart. Otto Krayer, Werner Mosimann and Gabriele Silver 73

Effect of Corticosteroids on the Cardiovascular Responses to Angiotensin and Norepinephrine. Allan M. Lefer, J. Laurence Manwaring and Richard L. Verrier. 83

The Cardiopulmonary Effects of Quinidine and Procainamide. Luis E. Folle and Domingo M. Aviado 92

Radiometric Measurement of Paw Temperature Changes Associated with Local Inflammation. Anthony W. Pircio and Edward J. Groskinsky 103

Interactions of Morphine Sulfate and Sodium Salicylate on Respiration in Cats. P. Pentiah, F. Reilly and H. L. Borison 110

Differential Effects of Depressant Drugs on Presynaptic Inhibition. James T. Miyahara, Don W. Esplin and Barbara Zablocka 119

The Blockade of Reticular and Spinal Facilitation of Motor Function by Orphenadrine. K. H. Ginzel 128

An Assessment of Inhalation as a Mode of Administration of Heroin by Addicts. Benjamin Pui-Nin Mo and E. Leong Way 142

A Pyrrolopyrimidine with Depressant Actions on the Central Nervous System. Stata Norton and Robert E. Jewett 152

Pharmacologic and Toxicologic Studies of *m*-(1-Methyl-3-Propyl-3-Pyrrolidinyl)-Phenol (CI-572), an Analgetic and Antitussive Agent. C. V. Winder, M. Welford, J. Wax and D. H. Kaump 161

Absorption, Distribution and Metabolism of Dimethylsulfoxide in the Rat, Rabbit and Guinea Pig. H. B. Hucker, P. M. Ahmad and E. A. Miller 176

No. 2, November 1966

Histochemical and Functional Relationships of Catecholamines in Adrenergic Nerve Endings. I. Participation of Granular Vesicles. L. S. Van Orden, III, F. E. Bloom, R. J. Barrnett, and N. J. Giarman 185

Interactions between the Catecholamines and Ganglionic Stimulating Agents in Sympathic Ganglia. William C. De Groat and Robert Volle 200

Nonganglionic Parasympathomimetic Action of Nicotine upon the Isolated Cat Iris. U. Schaeppi, B. L. Dennison and M. Dodd 216

Potentiation by Hydrocortisone of Responses to Catecholamines in Vascular Smooth Muscle. John C. Besse and Allan D. Bass 224

Modification by Sodium and Calcium of the Cardiotoxicity Induced by Ouabain. Noboru Toda and Theodore C. West 239

The Effect of Serum Potassium Concentration on Quinidine Toxicity. Martin Brandfonbrenner, Jean Kronholm and Harvey R. Jones 250

Myocardial *Alpha* and *Beta* Adrenergic Receptors as Demonstrated by Atrial Functional Refractory-Period Changes. WILLIAM C. GOVIER, NANCY C. MOSAL, PEGGY WHITTINGTON AND ANN H. BROOM 255
Response of Isolated Guinea-Pig Atria to Various Ganglion-Stimulating Agents. B. BHAGAT 264
Cardiovascular Actions of Diazepam in the Cat. C. Y. CHAI AND S. C. WANG 271
Electrolyte Content of Perfused Rat Ventricles Exposed to Halothane or Anoxia. RAYMOND R. PARADISE AND LIONELL K. GRIFFITH 281
Enhancement of Peritoneal Fluid Absorption by Dehydration, Mercaptomerin and Vasopressin. LEROY SHEAR, JOHN J. CASTELLOT, JAMES H. SHINABERGER, LOREN POOLE AND KEVIN G. BARRY 289
Effect of Dimethyl Sulfoxide on Permeability and Electrical Properties of Frog Skin. WILLIAM D. MORAIN, CAROL A. REPLOGLE AND PETER F. CURRAN 298
The Effects of Succinylcholine, Decamethonium, Hexacarbacholine, Gallamine and Dimethyl Tubocurarine on the Twitch and Tonic Neuromuscular Systems of the Cat. RONALD L. KATZ AND KENNETH E. EAKINS 303
Decreased Central Depressant Effect of Progesterone and Other Steroids in Rats Pretreated with Drugs and Insecticides. A. H. CONNEY, M. JACOBSON, W. LEVIN, K. SCHNEIDMAN AND R. KUNTZMAN 310
Inhibition of Writhing by Narcotic Antagonists. JACK PEARL AND LOUIS S. HARRIS .. 319
An Experimental Pain Method Sensitive to Morphine in Man: The Submaximum Effort Tourniquet Technique. GENE M. SMITH, LAWRENCE D. EGBERT, ROBERT A. MARKOWITZ, FREDERICK MOSTELLER AND HENRY K. BEECHER 324
Emesis Induced by the Intracerebroventricular Administration of Hydergine and Mechlorethamine Hydrochloride. R. H. PAPP, H. B. HAWKINS, N. N. SHARE AND S. C. WANG 333
Observations on the Pharmacology of Diphenidol, a Potent Antiemetic. CHARLES A. LEONARD, TSUNEO FUJITA, DAVID H. TEDESCHI, CHARLES L. ZIRKLE AND EDWIN J. FELLOWS 339
Age, Confinement and Aggregation as Factors in Amphetamine Group Toxicity in Mice. HARVEY I. CHERNOV, PATRICIA FURNESS, DORIS PARTYKA AND ALBERT J. PLUMMER. 346
Effects of Mecamylamine on Avoidance Conditioning and Maze Learning of Mice. ALBERTO OLIVERIO 350
The Metabolism of Ethopabate in Chickens. RUDOLF P. BUHS, DONALD POLIN, JOHN O. BEATTIE, JOHN L. BECK, JACK L. SMITH, OTTO C. SPETH AND NELSON R. TRENNER 357
Metabolism of Volatile Anesthetics. III. Induction of Microsomal Dechlorinating and Ether-Cleaving Enzymes. RUSSELL A. VAN DYKE 364
Effect of Morphine and Nalorphine on the Metabolism of Phospholipids in Guinea Pig Cerebral Cortex Slices. S. J. MULÉ 370
The Fate of FD&C Blue No. 2 in Rats. ELIZABETH J. LETHCO AND JUNIUS M. WEBB .. 384

No. 3, DECEMBER 1966

Adrenergic Responses of Renshaw Cells. F. F. WEIGHT AND G. C. SALMOIRAGHI ... 391
The Effect of Convulsant Drugs on Transmission through the Cuneate Nucleus. EUGENE S. BOYD, DENNIS A. MERITT AND LEONARD C. GARDNER 398
Relationships between Drug-Evoked Potentials and Transmission in a Sympathetic Ganglion. GERARD L. GEBBER AND ROBERT L. VOLLE 410
Observations on the Ganglion-Stimulating Action of Angiotensin and Bradykinin. U. TRENDELENBURG 418
Transmission of Preganglionic Impulses through the Muscarinic Receptors of the Superior Cervical Ganglion of the Cat. U. TRENDELENBURG 426
The Effect of a Thiamine Analog on Neuromuscular Transmission. W. L. NASTUK AND P. J. POPPERS 441
Effects of *m*-Amino Benzoic Acid Ethylester on Neuromuscular Transmission in the Frog. TAKASHI MAENO 449

Inhibition of the Release of Acetylcholine from Isolated Guinea-Pig Ileum by Crystalline Tetrodotoxin. YASUMI OGURA, YOKO MORI AND YOSHIO WATANABE 456
Intestinal Relaxation Produced by Sympathomimetic Amines in the Isolated Rabbit Jejunum: Selective Inhibition by Adrenergic Blocking Agents and by Cold Storage. BERT K. B. LUM, M. H. KERMANI AND RICHARD D. HEILMAN 463
Influence of Tyramine on Receptor Interaction with Dibenamine in Aortic Strips from Reserpine-Treated Rabbits. JOSEPH J. KRZANOWSKI, JR. AND ROBERT A. WOODBURY 472
Cocaine Tachyphylaxis and Effects on Indirectly-Acting Sympathomimetic Drugs in the Rabbit Aortic Strip and in Splenic Tissue. GERTRUDE D. MAENGWYN-DAVIES AND THEODORE KOPPANYI 481
Application of Steady State Kinetics to the Estimation of Synthesis Rate and Turnover Time of Tissue Catecholamines. B. B. BRODIE, E. COSTA, A. DLABAC, N. H. NEFF AND H. H. SMOOKLER 493
p-Chlorophenylalanine: A Specific Depletor of Brain Serotonin. B. KENNETH KOE AND ALBERT WEISSMAN 499
Relationship between 5-Hydroxytryptamine and Nerve Stimulation of Ciliary Activity. EDWARD AIELLO AND GIANCARLO GUIDERI 517
The "Humoral" Component of the Pressor Response to Central Vagal Stimulation and the Identification of the "Humor" as Norepinephrine. DRORI BEN-ISHAY, INGRID L. GRUPP AND GUNTHER GRUPP 524
The Influence of Thyroid Hormone on Myocardial Metabolism of Norepinephrine in the Guinea Pig. M. JAY GOODKIND 531
Localization of Venoconstrictor Responses. A. J. RICE, C. R. LEESON AND J. P. LONG. 539
Mechanisms of Sinus Bradycardia Induced by Veratrum Alkaloids—Protoveratrine A. C. Y. CHAI AND S. C. WANG 546
Absence of Effects of Cardiac Glycosides on Cardiac Myosin and a Ca^{++}-Sensitive Reconstituted Cardiac Actomyosin. ARNOLD M. KATZ 558
Effect of Cyclopropane and Halothane on Ventricular Mechanics; a Change in Ventricular Diastolic Pressure-Volume Relationships. WILLIAM K. HAMILTON, C. PHILIP LARSON, J. DAVID BRISTOW AND ELLIOT RAPAPORT 566
Biotransformation of Digitoxin in the Dog. B. G. KATZUNG AND F. H. MEYERS 575
Stimulation of Cerebrospinal Fluid Production by Low Doses of Intraventricular Ouabain. W. W. OPPELT AND R. F. PALMER 581
Studies on the Uptake of Morphine by the Choroid Plexus *in Vitro*. A. E. TAKEMORI AND MICHAEL W. STENWICK 586
The Effect of Potassium on Nicotine-Induced Contracture and Ca^{45} Movements in Frog Sartorius Muscle. GEORGE B. WEISS 595
The Effect of pH on Nicotine-Induced Contracture and Ca^{45} Movements in Frog Sartorius Muscle. GEORGE B. WEISS 605
The Protective Effect of Aldrin against the Toxicity of Organophosphate Anticholinesterases. ANTHONY J. TRIOLO AND J. M. COON 613
Prevention and Remission by Adrenocortical Steroids of Nicotinamide Deficiency Disorders and of 6-Aminonicotinamide Toxicity in Rats and Dogs. PAUL GREENGARD, E. B. SIGG, I. FRATTA AND SYLVIA B. ZAK 624
Physiologic Disposition of H^3-Cyclazocine in Nontolerant, Tolerant and Abstinent Dogs. S. J. MULÉ AND C. W. GORODETZKY 632
ω-Amino Acids and Various Biogenic Amines as Antagonists to Pentylenetetrazol. SIDNEY KOBRIN AND JOSEPH SEIFTER 646
Failure to Anesthetize Human Subjects by Intravenous Administration of Magnesium Sulfate. G. SOMJEN, M. HILMY AND C. R. STEPHEN 652
The Effect of Phenyramidol on the Metabolism of Bishydroxycoumarin. HARVEY M. SOLOMON AND JOHN J. SCHROGIE 660
Effects of Several Saluretic-Diuretic Agents on Renal Hemodynamics. JERRY B. HOOK, ARNOLD H. BLATT, MICHAEL J. BRODY AND HAROLD E. WILLIAMSON 667
Erratum 674
Index, Volume 154, October–December 1966 675
